No: 1519 / SEIAA /18
Date: 11.10.18

To,

M/s Shukdeo Prasad Goenka
C/o Goenka Bhawan, Station Road, Katni M.P -483501.

Sub: Case No. 153/2008 Prior Environmental Clearances for **laterite, yellow ochride, manganese, red oxide, red ochride & fire clay mining** (Opencast semi mechanised method) in an area of 48.562 ha for production capacity Total (684474 TPA) Laterite 482502 TPA, Yellow Ochre 52668 TPA, Rex Oxide -26681 TPA, red ochride- Manganese 122625 TPA at khasra no. 310, 311, 313, 314/1 & 2, 315, 316, 317, 318, 265, 267, 320 P (Revised Khasra no. 346, 359, 360, 361, 362, 373, 374, 375, 376, 378, 507 (Part) at Village Jhinna Teh- Dhimmerkhera, Distt- Katni M.P. by M/s Shukdeo Prasad Goenka C/o Goenka Bhawan, Station Road, Katni M.P.

- I. This has reference to your letter received in SEIAA office on 26.07.2008 and subsequent letters seeking Prior Environmental Clearance for the above project under the EIA Notification, 2006. The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification, 2006 on the basis of the mandatory documents enclosed with the application viz., the Form - I, Pre-Feasibility Report, ToR and subsequently submission of EIA, Public Hearing and the additional clarifications furnished in response to the observations of the State Expert Appraisal Committee (SEAC) and State Environment Impact Assessment Authority (SEIAA) constituted by the competent Authority.
- II. It has been noted that the proposal is for **laterite, yellow ochride, manganese, red oxide, red ochride & fire clay** Mine in an area of 48.562 ha. The mining lease area is located at khasra no 310, 311, 313, 314/1 & 2, 315, 316, 317, 318, 265, 267, 320 P (Revised Khasra no. 346, 359, 360, 361, 362, 373, 374, 375, 376, 378, 507 (Part) at Village Jhinna Teh- Dhimmerkhera, Distt- Katni. The nearest village Jhinna – Pipariya is located at the distance of 1.5 km. There is no National Park/Sanctuary within 10 Km radius.
- III. The proposed project is for production capacity Total (684474 TPA) Laterite 482502 TPA, Yellow Ochre 52668 TPA, Rex Oxide -26681 TPA, red ochride- Manganese 122625 TPA. The mining will be carried out by Open cast semi mechanised method.
- IV. The water requirement is 27 KLD. The water met from Tankers of Dhimerkheda Nagar Palika will be used for domestic purpose, dust suppression and green belt development .An area of 28.5104 ha. area shall be covered under plantation at the end of conceptual period The public hearing was conducted at village Jhinna on 09.02.2009 at Mine Parisar.
- V. As per direction of Hon'ble High Court, Jabalpur dated 11.6.18 in WP-12706/2018, the SEIAA Case No. 153/2008 of Mr. Sukhdeo Prasad Goenka for prior EC of laterite, yellow ochride, manganese, red oxide, red ochride & fire clay mining project in an area of 48.562 ha at Village Jhinna Teh- Dhimmerkhera, Distt- Katni M.P. has been considered and observed that hon'ble Supreme Court has not yet granted any stay in this matter as per

hearing dated 3.08.2018. This case has been examined from environmental angle considering revenue land as per decision of Hon'ble High Court, Jabalpur dated 15.09.2015 in RP-257/2015 and Collector, Katni vide letter No. 1255/खनिज/2016 dated 21.03.2016 has mentioned that the said land of sanctioned mining lease is of revenue Department, Govt. of M.P based on the report of Tehsildar, Deemarkhera dated 23.02.2016. However, the matter is sub judice in Supreme Court.

- VI. There are few types of different species of tress found in the mining area which can be categorized into Mango, Neem, Mahua, and Char etc which are sparsely present in the lease area. Mahua tress can be counted to number 83 in khasra no 507 being of 75.57 hectare out of which only 32.382 hectare includes as a part in mining lease area along with 1896 plants of shrub nature present in the lease area, rest khasra number which fall within the mining lease area includes approx. 50 tress of different species as found and formulated by the concerned authority. Reclamation for which the Lessee has proposed compensatory plantation of 10000 trees during 1st five years.
- VII. The project has been considered in accordance with the provisions of the EIA notification issued by the Ministry of Environment & Forests vide S.O. 1533 (E), dated 14th September 2006.
- VIII. Based on the information submitted, as at Para (II) above and others the State Level Environment Impact Assessment Authority (SEIAA) considered the case in its 499th meeting dtd. 13.08.2018 and decided to accept the recommendations of 47th SEAC meeting dtd. 29.01.2010.

Hence, Prior Environmental Clearance is granted for laterite, yellow ochride, manganese, red oxide, red ochride & fire clay mining (Opencast semi mechanised method) in an area of 48.562 ha for production capacity Total (684474 TPA) Laterite 482502 TPA, Yellow Ochre 52668 TPA, Rex Oxide -26681 TPA, red ochride- Manganese 122625 TPA at khasra no. 310, 311, 313, 314/1 & 2, 315, 316, 317, 318, 265, 267, 320 P P (Revised Khasra no. 346, 359, 360, 361, 362, 373, 374, 375, 376, 378, 507 (Part) at Village Jhinna Teh- Dhimmerkhera, Distt- Katni M.P. for the lease period to M/s Shukdeo Prasad Goenka C/o Goenka Bhawan, Station Road, Katni M.P, subject to the following specific conditions as recommended by SEIAA & SEAC and subsequent Standard Conditions.

A. SPECIFIC CONDITIONS

1. Since the matter regarding land of lease area is under sub-judice as SLP filed by Forest Department hence final decision of Hon'ble Supreme Court will be obligatory to PP.
2. PP shall commence mining activities only after execution of lease agreement.
3. The EC granted for a project on the basis of aforesaid documents shall become invalid in case the actual land for the project site turns out to be different from the land considered from the time of appraisal of the project and mentioned in the EC as per MoEF&CC, GoI OM dated 07.10.2014.
4. Grant of Environmental Clearance does not necessarily imply that forestry clearance shall be granted to the project and their proposal for their forestry clearance will be considered by respective authorities on their merits and decision taken. The investment made in the project if any, based on environmental clearance so granted, in anticipation of the clearance from forestry angle shall be entirely at the cost and risk of project proponent and SEIAA shall not be responsible in this regard in any manner as per MOEF&CC, GoI OM dated 02.12.2009.

5. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of lease area to avoid any untoward incident involving public and animals by the PP.
6. PP shall ensure not to cut any existing tree in the mining lease area. If it is necessary, prior permission of the competent authority will be obtained
7. PP shall demarcate a barrier zone of 7.5 m towards the forest boundary as no mining zone and develop a green belt in it. The plantation shall be carried out in the greenbelt area in current year with proper watering arrangement. The Chain-link fencing (7 ft. height) shall be also carried out towards the forest area in consultation with Forest Department. Besides this, proper fencing shall be carried out in the periphery of the ML area.
8. The compensatory afforestation (10000 trees during 1st five years) should clearly be an additional plantation activity and not a diversion of part of the annual plantation programme
9. Plantation programme as mentioned in EIA/EMP and presented during presentation in SEIAA & SEAC shall be followed in content and spirit. PP shall ensure dense plantation towards southern boundary of lease area to protect human habitation.
10. Greenbelt consisting of 3-tier plantation of width not less than 7.5 m shall be developed all along the mine lease area as soon as possible. The green belt comprising a mix of native species (endemic species should be given priority) shall be developed all along the major approach/ transportation roads.
11. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table approval of the Central Ground Water Board shall be obtained.
12. Adequate groundwater recharge measures shall be taken up for augmentation of ground water. The project authorities shall meet water requirement of nearby village(s) after due treatment conforming to the specific requirement (standards).
13. Before commencing the mining activity, site demarcation should be done leaving 15 m. from the forest boundary as a "no mining zone" and it will be maintained as buffer zone. The demarcation should be done by the Revenue Officials in the presence of Mining Officer, Katni.
14. The entire excavated area, backfilling, external OB dumping (including top soil) and afforestation plan shall be in conformity with the "during mining"/"post mining" land-use pattern, which is an integral part of the approved Mining Plan and the EIA/EMP submitted to authority. Progressive compliance status vis-a-vis the post mining land use pattern shall be submitted to the MOEFCC/RO. No overburden will be dumped outside the mine lease area. Overburden shall be used for the beneficial uses.
15. PP shall bound to compliance the final closure plan as approved by the DGM/IBM.
16. PP will obtain other necessary clearances/NOC from respective authorities.
17. Mining shall be carried out under strict adherence to provisions of the Mines Act 1952 and subordinate legislations made there-under as applicable.
18. Mining shall be carried out as per the approved mining plan(including Mine Closure Plan) abiding by mining laws related to mining and the relevant circulars issued by Directorate General Mines Safety (DGMS).
19. No Blasting & drilling will be carried out.
20. Zero liquid discharge should be maintained.
21. Retaining wall along with drain shall be provided all around the down side of the hillock.

22. Approach road to the mine site shall be made pucca and be maintained properly by the PP to control fugitive emissions.
23. Peripheral plantation all around the project boundary shall be carried out using tall saplings of minimum 2 meters height of species which are fast growing with thick canopy cover preferably of perennial green nature. As proposed in the landscape plan & EMP a minimum of 2000 No's per annum of trees will be planted along and within the ML. PP will also make necessary arrangements for the causality replacement and maintenance of the plants.
24. Transportation of material shall be done in covered vehicles.
25. Transportation of minerals shall not be carried out through forest area.
26. Catch and or garland drains and siltation ponds in adequate numbers and appropriate size shall be constructed around the mine working & OB dumps to prevent run off of water and flow of sediments directly into the river and water bodies.
27. All garland drains shall be connected to settling tanks through settling pits and settled water shall be used for dust suppression, green belt development and beneficiation plant. Regular de-silting of drains and pits should be carried out.
28. Settling tanks and pits shall be provided for proper settling time. The accumulated silt (containing silica also) shall be used for back filling and till than store in RCC lined tank.
29. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
30. The commitments made in the public hearing will be fulfilled by the PP.
31. PPE's such as helmet, ear muffs etc should be provide to the workers during mining operations.
32. The proposed EMP cost is Rs. 25.00 lakhs per year, out of which Rs. 10.00 lakhs per year is proposed for green belt development inclusive of green belt along approach road.
33. The environment policy of the company is framed as per MoEF&CC guidelines and same should be implemented through monitoring cell. In case the allocated EMP budget for mitigative measures to control the pollution is not utilized fully, the reason of under utilization of budgetary provisions for EMP will be addressed in annual return.
34. A separate account will be maintained for all the expenses made in the EMP activities by PP for financial accountability and these details will be provided in Annual Environmental Statement.
35. PP will be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA.
36. The validity of the EC shall be as per the provisions of EIA Notification subject to the following : Expansion or modernization in the project, entailing capacity/ built-up area/ project area, addition with change in process and or technology and any change in product - mix in proposed mining unit shall require a fresh Environment Clearance.
37. Regular air & water quality monitoring shall be carried out by PP before discharging it into the nearby agriculture fields from authorized laboratory in consultation with Regional Officer, MPPCB.
38. Implementation of the action plan on the issues raised during the public hearing shall be ensured. The project proponent shall undertake all the tasks/measures as per the action plan submitted with budgetary provisions during the public hearing.

39. PP shall ensure generation of employment opportunities to nearby Village on priority bases.
40. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.
41. Proper infrastructure with shelter, drinking water, toilet and first-aid facilities shall be provided for the laborers. A provision should be made to construct a pakka rest shelter along with toilet and drinking water facility.
42. PP should also carry out regular sprinkling in the mining lease area to arrest dust emission from mining activities affecting the nearby agriculture fields
43. Mining shall be limited to the area as shown in surface plan and as per the approved mining scheme.
44. PP shall ensure the proper water supply arrangements for plantation especially in summer season.
45. Efforts should be made to reduce energy and fuel consumption by conservation, efficiency improvements and use of renewable energy.
46. PP shall ensure proper implementation of plantation, dust suppression, approach road construction, maintenance of existing pakka road and construct of garland drain with settling tank especially for prevention of pollution in nearby lake as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.
47. The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.
48. The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State pollution Control Board/ Committee.
49. Vehicular emissions shall be kept under control and regularly monitored. All the vehicles engaged in mining and allied activities shall operate only after obtaining PUC' certificate from the authorized pollution testing centers.
50. The transportation of minerals shall be carried out as per the provisions and route envisaged in the approved Mining Plan or environment monitoring plan. Transportation of the minerals through the existing road passing through any village shall be avoided. In case, it is proposed to construct a 'bypass' road, it should be so constructed so that the impact of sound, dust and accidents could be appropriately mitigated.
51. PP must ensure implementation of the following activities with separate budget provision of Rs.10.00 lakhs per year should be kept under CSR :
 - a. Donation of 500 no. blankets at Bandhi & Jhinna under Gram Panchayat Supervision.
 - b. Construction of 10 no toilets at village Bandhi & Jhinna.
 - c. Construction of 10 nos. community urinals at village Bandhi & Jhinna under Gram Panchayat Supervision
 - d. Construction of community center at village Bandhi & Jhinna
 - e. Donation of Hand Cart and Dust Bins to Gram Panchayat Bandhi & Jhinna
 - f. Promotion of Hygiene education.
 - g. Medical Health check up camp for nearby villagers
 - h. Hand Pump bore well for clean water facilities in nearby Bandhi & Jhinna villages

- i. Appropriate and submitted activities will be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.

The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Grampanchayat.

52. The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No.22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility
53. PP should ensure to submit half yearly compliance report and CSR activity report with photographs of plantation in MP-SEIAA.
54. PP shall explore the possibility of using solar energy where ever possible.
55. Commitments towards CSR have to be followed strictly.
56. Regular health checkup record of the mine workers has to be maintained at site.
57. PP has to strictly follow the directions / guidelines issued by MoEF, CPCB and other Govt. Agencies from time to time.

B. STANDARD CONDITIONS

1. All activities / mitigative measures proposed by PP in Environmental Impact Assessment and approved by SEAC must be ensured.
2. All activities / mitigative measures proposed by PP in Environmental Management Plan and approved by SEAC must be ensured.
3. All parameters listed in Environmental Monitoring Plan approved by SEAC must be monitored at approved locations and frequencies.
4. Blast vibrations study shall be conducted and submitted to the Regional Office, MoEF, GoI, Bhopal and MP PCB **within six months**. The study shall also provide measures for prevention of blasting associated impact on nearby houses and agricultural fields.
5. Controlled blasting techniques with sequential drilling shall be adopted. The blasting shall be carried out in the day time only.
6. Slope of the mining bench and ultimate pit limit shall be as per the mining scheme approved by Indian Bureau of Mines.
7. A final mine closure plan, along with details of Corpus Fund, shall be submitted to the Regional Office, MoEF, GoI, Bhopal and MP PCB within 5 years in advance of final mine closure for approval.
8. No change in the calendar plan including excavation, quantum of mineral and waste shall be made.
9. Mining will be carried out as per the approved mining plan. In case of any violation of mining plan, the Environmental Clearance given by SEIAA will stand cancelled.
10. Adequate buffer zone shall be maintained between two consecutive mineral bearing deposits.
11. The transportation of the minerals extracted from the mining area shall be limited to day hours time only.

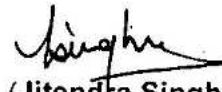

12. Maintenance of near by local roads through which transportation of minerals are undertaken shall be carried out by the company regularly at its own expenses. The roads shall be black topped.
13. Measures for prevention and control of soil erosion and management of silt shall be undertaken. Protection of dumps against erosion shall be carried out with geo textile matting or other suitable material, and thick plantations of native trees and shrubs shall be carried out at the dump slopes. Dumps shall be protected by retaining walls.
14. Trenches / garland drains shall be constructed at foot of dumps and coco filters installed at regular intervals to arrest silt from being carried to water bodies. Adequate number of check dams and gully plugs shall be constructed across seasonal/ perennial Nallahs, if any, flowing through the ML area and silts arrested. De-silting at regular intervals shall be carried out.
15. The project proponent will ensure necessary protection measures around the mine pit, waste dumps and garland drain.
16. Top soil / solid waste shall be stacked properly with proper slope and adequate safeguards and shall be utilized for backfilling (wherever applicable) for reclamation and rehabilitation of mined out area. Top soil shall be separately stacked for utilization later for reclamation and shall not be stacked along with over burden.
17. Over burden (OB) shall be stacked at earmarked dump site(s) only and shall not be kept active for long period. The maximum height of the dump shall not exceed 20 m, each stage shall preferably be of maximum 10 m and overall slope of the dump shall not exceed 35°. The OB dump shall be backfilled and shall be scientifically vegetated with suitable native species to prevent erosion & surface run off.
18. Monitoring and management of rehabilitated areas shall continue until the vegetation becomes self-sustaining. Compliance status shall be submitted to the Regional Office, MoEF, GoI, Bhopal and MP PCB on six monthly basis.
19. Green belt development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO / Agriculture Deptt. Herbs & shrubs shall also form a part of afforestation programme besides tree plantation. The company shall involve local people for plantation programme. Details of year wise afforestation programme including rehabilitation of mined out area shall be submitted to the Regional Office, MoEF, GoI, Bhopal and MP PCB every year.
20. Vehicular emissions shall be kept under control and regularly monitored. Vehicles used for transportation of minerals and others shall have valid permissions as prescribed under Central Motor Vehicle Rules, 1989 and its amendments. The vehicles transporting minerals shall be covered with a tarpaulin or other suitable enclosures so that no dust particles / fine matters escape during the course of transportation. No overloading of minerals for transportation shall be committed. The trucks transporting minerals shall not pass through wild life sanctuary, if any in the study area.
21. Four ambient air quality-monitoring stations shall be established in the core zone as well as in the buffer zone for RSPM, SPM, SO₂, NO_x monitoring. Location of the stations should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken in consultation with the State Pollution Control Board. The monitored data for criteria pollutants shall be regularly up-loaded and displayed on the company's website.
22. Data on ambient air quality (RPM, SPM, SO₂, NO_x) should be regularly submitted to the Regional office, MoEF, GoI, Bhopal and the State Pollution Control Board / Central Pollution Control Board once in six months.
23. Ambient air quality at the boundary of the mine premises shall confirm to the norms prescribed in MoEF notification no. GSR/826(E) dtd. 16.11.09.

24. Fugitive dust emissions from all the sources shall be controlled. Water spraying arrangement on haul roads, loading and unloading and at transfer points shall be provided and properly maintained. The dust emission shall be monitored regularly as per norms and records to be submitted to the Regional Office, MoEF, Gol, Bhopal and MP PCB regularly.
25. Measures shall be taken for control of noise levels below 75 dBA in the work environment. Workers engaged in operations of HEMM, etc., shall be provided with ear plugs / muffs and health records of the workers shall be maintained.
26. Rain water harvesting shall be undertaken to recharge the ground water source. Status of implementation shall be submitted to the Regional Office, MoEF, Gol, Bhopal and MP PCB **within six months** and thereafter every year from the next consequent year.
27. Regular monitoring of ground and surface water sources for level and quality shall be carried out by establishing a network of existing wells and constructing new piezometers during the mining operation. The monitoring shall be carried out four times in a year i.e. pre-monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) and the data thus collected shall be regularly sent to Regional Office, MoEF, Gol, Bhopal, MP PCB, Central Ground Water Authority and Regional Director, Central Ground Water Board.
28. The waste water from the mine if any, shall be treated to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December, 1993 or as amended from time to time. The oil and grease trap shall be installed for the effluents generated from the workshop, if any, before discharging into the natural stream. The discharged water from the tailing dam, if any shall be regularly monitored and report submitted to the Regional Office, Ministry of Environment & Forests, Gol, Bhopal, Central Pollution Control Board, and the State Pollution Control Board.
29. Hydro-geological study of the area shall be reviewed by the project proponent annually. In case adverse effect on ground water quality and quantity is observed mining shall be stopped and resumed only after mitigating steps to contain any adverse impact on ground water is implemented.
30. Occupational health check up for the workers including identification of work related health hazards, training on malaria eradication, HIV, and health effects on exposure to mineral dust etc. shall be carried out. Periodic monitoring for exposure to respirable mineral dust on the workers shall be conducted and records maintained including health records of the workers. Awareness programme for workers on impact of mining on their health and precautionary measures like use of personal equipments etc. shall be carried out periodically. Review of impact of various health measures shall be conducted followed by follow up action wherever required. It should be made available for inspection whenever asked. Necessary funds for this also should be earmarked.
31. Project Proponent shall ensure appropriate arrangement for shelter and drinking water for the mine workers.
32. Persons working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
33. Commitment towards CSR have to be followed strictly.
34. Special measures shall be adopted to prevent the nearby settlements from the impacts of mining activities.
35. The Project Proponent shall inform to the Regional Office, MoEF, Gol, Bhopal and MP PCB regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.

36. The necessary funds as per mandate shall kept for environmental protective measures which should be kept in separate account and shall not be diverted for other purpose. Year wise expenditure shall be reported to the Regional Office, MoEF, GoI, Bhopal and MP PCB.
37. The Regional Office, MoEF, GoI, Bhopal and MP PCB shall monitor compliance of the stipulated conditions. A complete set of documents including Environment Impact Assessment Report, Environmental Management Plan, Public hearing and other relevant documents should be given to Regional Office, MoEF, GoI, Bhopal and MP PCB.
38. A copy of the environmental clearance shall be submitted by the Project Proponent to the Heads of the Local Bodies, Panchayat and Municipal Bodies, as applicable, in addition to the relevant officers of the Government who in turn has to display the same for 30 days from the date of receipt.
39. The Project Proponent shall advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and also at web site of the State Level Environment Impact Assessment Authority (SEIAA) website at www.mpseiaa.nic.in and a copy of the same shall be forwarded to the Regional Office, MoEF, GoI, Bhopal.
40. The project proponent has to strictly follow directions/guideline issued by the MoEF, GoI, CPCB and other Govt. agencies from time to time.
41. Action plan with respect to suggestion/improvement and recommendations made and agreed during public hearing consultation shall be submitted to the Regional Office, MoEF, GoI, Bhopal, MP PCB and to the competent authority of the State Govt. within six months.
42. The Project Proponent has to submit half yearly compliance report of the stipulated prior environmental clearance terms and conditions in hard and soft copy to the Regulatory Authority on 1st June and 1st December of each calendar year.
43. The SEIAA of M.P. reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
44. These stipulations would be enforced among others under the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and control of Pollution) Act 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.
45. The Ministry or any other competent authority may alter/modify the conditions or stipulate any further condition in the interest of environment protection.
46. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
47. Any appeal against this prior environmental clearance shall lie with the Green Tribunal, if necessary, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
48. All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department, Forest Conservation

Act, 1980 and Wildlife (Protection) Act, 1972 etc. shall be obtained, as applicable by project proponents from the respective competent authorities.

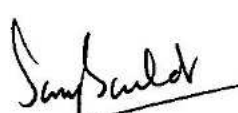

49. The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM, SO₂, NO_x (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
50. The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the Regional Office of MoEF.
