

1. Opening Remarks of the Chairman

The Chairman welcomed all the members of the Committee (**Annexure-1**) and thereafter agenda items were taken up for deliberations. The list of participants present during meeting is annexed as **Annexure-2**.

2. Consideration of the Projects

09 Cases (for TOR / EIA / Query Reply deliberations) were invited. Out of these proposals only 08 proposals were presented before the committee and with the permission of Hon able Chairman Case No. 474/2009 for revised TOR originally scheduled for 29th June 2010 was also allowed for presentation on request of the PP. It is decided to hold the 61st and 62nd meetings on 29th & 30th July respectively 2010.

3. Discussion on B-1 & B-2 Categorization – In continuation to the discussion / decision of the 56th meeting dated 25/05/10 initial draft of the guidelines in context to the B-1 / B-2 categorization was discussed and feed back from the members has been requested in the next meeting.**4. Discussion in context to the SEIAA letter No. 154 dated 15/06/2010-** The referred letter was placed before the committee, after discussion it was decided by the committee to send a reply to SEIAA.**5. Field Visits of Sub-Committee** – Following field visits to be conducted by the sub-committee were decided in the meeting:

i) Western Coal fields Limited, Harradol Under-Ground Coal Mine in Kanhan area, distt; Chhindwara, M.P. 27.45 Ha. Production 0.135 MTP/A.(Case No. 119/2008) - It was noted that the mine in question is located in between two operational mines namely Pathakhera & Pench. Other two mines are also managed by WCL. The PP has stated that a large part of existing infrastructure & manpower will be utilized for this proposed mine. Thus, it is felt necessary to make a site visit by a sub committee for better understanding of the present status of operating mines and the likely impact if the proposed mine is cleared. The visit has been fixed between 12th to 16th July 2010.

ii) M/s Om Prakash Bharathia Stone Mine Gwalior (M.P) Stone Mine in 8.00 Ha at village- Chandpara Distt- Gwalior (M.P) production capacity – 30,000 MTA. (Case no. 242/2008) and M/s Emerald Stone Industries, Chandrapura Tehsil- Mura-Bijoli Gwalior (M.P) Stone Mine in 9.00 Ha at village- Chandrapura Distt- Gwalior- (M.P) (Case no. 243/2008). The visit has been fixed from 31st July to 2nd August 2010, after the regular SEAC meeting at Bhopal.

Deliberations:

- 1. Case no. 244/2008** M/s Komesh Stone Comapny, Gram- Rajiyar , Dabra Distt. Gwalior (M.P) - Stone Mine in 15.00 Ha at village- Rajiyar (Dabra) Distt- Gwalior (M.P) For EIA. TOR issued vide letter no. 105 dated 11/02/2009.

Environment Consultant: M/s Creative Enviro Services, Bhopal

This being a mining project with lease area between 50 ha to 5 ha is listed at S.N. 1(a) of schedule under 'B' Category of EIA Notification, 2006 and is to be appraised by SEAC.

It was reported that this is a case of existing mine presently closed. It is an open cast / OTFM mining proposal. The Khasra No. of Project is 247 with production Capacity - 50000 cum per annum. TOR was issued vide letter no. 105 dated 11/02/2009. Public hearing was conducted on - 2.06.2010. No adverse comments were reported in the public hearing. Lease Period is 14.12.2007 to 13.12.2017. Type of Land is reported to be Govt. Revenue land.

Nearest Highway is Dabra-Chinaur Raod-1.5km. Nearest Village is Rajiyar & Litapura - 0.5 km. No Ecological Sensitive Zone, national parks and sanctuary, Reserve Forest, Historical Place has been reported in the 5 Km periphery of the proposed site. Nearest River/ Nalla reported are as follows - Non Nadi - SW - 2.75km , Gobra Minor Canal -E - 1.25km, Chinaur Nadi -WWS - 3.5km. Other details pertaining to the project are as below: Area under dumps is proposed to be 0.7230 ha. Area under pits shall be 1.7520 ha. Overburden quantity is reported to be 22906 cum. Area under Infrastructure & Road is proposed to be 0.2 ha. Area under Plantation at end of lease period shall be - 4.0ha and area for Water Reservoir shall be 1.0 ha. After deliberation Committee has sought following information with supporting documents from the PP:

- Affidavit stating that no crusher shall be installed in the project site, as the same was not included in the Application, TOR and Public Hearing proceedings.
- Location of OB and green belt shall be mentioned in lay out map.
- GPS locations of nearest habitat, railway line and mine to be furnished.
- NOC from forest department in prescribed format to be submitted.
- NOC from Gram Sabha to be submitted.

2. Case no. 476/2009 Shri Rajendra Krishna Kushmaria S/o Shri Ramkrishna Kusmaria, Village & Post - Sakor, Teh-Hata, Distt.- Damoh-(M.P.) Dhurkheda & Puraina Katni Lime stone deposite 15.546 Ha., Cap.- 10000 TPA at Dhurkheda & Puraina Katni, Teh-Hata, Distt.-Damoh (M.P.) For EIA. ToR issued vide letter no 1099 dt. 05/12/09

Environment Consultant: M/s Creative Enviro Services, Bhopal

This being a mining project with lease area between 50 ha to 5 ha is listed at S.N. 1(a) of schedule under 'B' Category of EIA Notification, 2006 and is to be appraised by SEAC. It was reported that this is a case of existing mine presently closed. It is an open cast / manual mining proposal. Khasra No. of Project is Part of 90 & 105, Part of 403, with production Capacity to the tune of 10000 cum per annum. Date of Public Hearing was 02.06.2010. Lease Period is from 07.06.2007 to 06.06.2026. Type of Land is reported to be Govt. Revenue land. Nearest Highway is Hatta –Panna PWD road- 3km. Nearest Village is Nimarmund at 0.5 km in SW direction. Nearest River/ Nalla is Sonar River -3.5km in West of the site. No Ecological Sensitive Zone, national parks and sanctuary, Reserve Forest, Historical Place has been reported in the 5 Km periphery of the proposed site. Existing Pits & Quarries reported in 3.25hect. Existing Dumps reported in 1.0hect. Ultimate Depth of Mining shall be 9m up to 371mRL Ultimate Pit Slope shall be 60o. Expected Life of Mines is 111 years. Area covered under pit end of lease period is proposed to be 3.9635Hect. Area to be reclaimed by end of lease period is 0.65hect. Area to be covered under plantation by end of lease period is 5.2 hect. Area covered by water reservoir by end of lease period shall be 3.3135hect.

After deliberation Committee has sought following information with supporting documents from the PP:

- Affidavit stating the fulfillment of commitments made during Public Hearing proceedings to be furnished.
- Location of OB and green belt shall be mentioned in lay out map.
- GPS locations of nearest habitat, railway line and mine to be furnished.

3. Case no. 560/2010 – Shri Rajeev Singh MIG- 34, Bandhavgarh Colony Post Office & District – Satna (M.P) - Aber Limestone, Laterite & Ochre Mine – 21.794 Ha, Cap- 50,000 MTA at village - Aber Tehsil- Rampur Baghelan Dist- Satna (M.P) For – TOR

Environment Consultant: Bhagwati Ana lab., Hyderabad

This being a mining project with lease area between 50 ha to 5 ha is listed at S.N. 1(a) of schedule under ‘B’ Category of EIA Notification, 2006 and is to be appraised by SEAC.

This is a case of new mine yet to be open. It is an open cast / manual mining proposal. Aber Limestone, Laterite & Ochre Mine is situated in Village Aber, Tehsil Rampur Baghelan, Dist. Satna (M.P). Area of the Mining Lease is 21.794 ha . The mining Lease was approved under Rule 22 (4) of M.C.R 1960 vide letter No. MP/Satna/Limestone/MPLN/G-28/08-09 dated 12.03.2009 by Controller of Mines (central zone), Indian Bureau of Mines. The mining lease has been granted for 30 years. The Mining Lease period is effected from 23.06.2009 to 22.6.2039. Nearest Railway Station: Satna at a distance of 25 kms SW. Road Connectivity: Aber –Lakhanwah approach road 2 kms. Type of lease area : Govt. Land at Khasra No: 1/1 P. Water Requirement is 5 m³ / day. Source of Water is Ground Water & Sump Water. Man Power Requirement is 85. OB / waste shall be 1,450 TPM. Life of Mine is 41 years. Nearest Water Body is Simrawal river at a distance of 7.5 Kms and Nearest habitation is Tihai at a distance of 1 Km WNW.

After deliberation committee has decided to issue TOR to the PP for carrying out EIA / EMP with inclusion of following:

- Duly attested & certified Mining Plan approved by competent authority has to be submitted along with the copy of current lease deed and lease letter.
- Monitoring has to taken up as per the norms using appropriate air/water quality modeling, based on meteorological data (wind-rose) of the region.
- All chemical analyses report from approved laboratory in original format. The

chemical analyses should incorporate method of analyses, instruments used and the details of standards used. The date and time of sampling should also be mentioned in the report.

- Total area for which afforestation has been proposed – plan stating how much plantation shall be taken up yearly, has to be submitted. Plantation of local species along with Sheesham, Neem, Tendu, Kachnar & various fire-wood trees should be taken up. Map showing green belt to be submitted.
- Plantation in at least 33% of the total area has to be ensured with the lease period; accordingly plan with map depictions has to be submitted with EIA.
- PFR should include cost benefit analyses considering- social cost, environment cost and pre-occupational cost.
- For welfare of the mine-workers various activities such as regular health checkups, first-aid, shelter for rest and meals, drinking water etc. has to be taken up. Nearby mine owners may form a society and funds for welfare of mine-workers may be created from various govt. schemes and other sources. This aspect has to be covered in the EMP.
- Management of OB solid waste generated during mining has to be addressed through incorporation of a concrete plan for the same. The OB area should be as away as possible from the water bodies in vicinity of the site.
- Water-shed management plan to be submitted, in view of the damages caused in the catchment-area of rivers falling in the prescribed study area of mining region & to support the ground-water recharging.
- In land use map, details regarding the agricultural crops pattern around the mining area should also be added.
- Map depictions: coloured maps depicting land use of the region showing sensitive / fragile features and detailed lay-out of the site clearly showing green-belt (existing & planned)
- Species proposed in the green belt development should be notified.
- Satellite Image of the location of mine should be submitted with demarcation of other proposed/in operation mines in nearby area. Exact distances of nearby features have to be reported using advanced technique.
- Location is also to be shown in Tehsil map procured from revenue department.
- The EIA should be prepared based on model TOR for appraisal of mining projects issued by MoEF, Delhi

shall be 8 m³/day which shall be taken from Ground water. Generation of soil and OB/waste shall be 30,800 m³ / annum. PP has submitted NOC from DFO in prescribed format and NOC from Gram Sabha. After deliberation Committee has sought following information with supporting documents from the PP:

- A letter has to be obtained from Regional Officer Sagar and Collector Chhatarpur showing justifications for conducting joint public hearing for the Case no. 464/2009 & 463/2009.
- Affidavit with commitment and budgetary provisions for compliance of the points of public hearing to be furnished and a copy of the same has to be filed with Collector Chhatarpur, Regional Officer MPPCB, Sagar and Concerned Gram Panchayat.
- Location of OB and green belt shall be mentioned in lay out map.
- GPS locations of nearest habitat, railway line and mine to be furnished.
- What shall be the mode of dispersion of funds kept for CSR to be furnished.
- Location of the village is very close (150 meters) from the site and site is located in hilly area, hence measures taken to prevent the habitants of the region from the mining impacts has to be detailed out and submitted.
- Permission from concerned gram panchayat for abstraction of ground water.

9. Case No. 548/2010 M/s Eastern Minerals Bhagwant Pura, 5th KM, Mauranipur Road, Jhansi (U.P.) 284 001 - Diaspore & Pyrophyllite mine 9.67 ha. Cap. 1360 & 15530 Tonnes of ROM per annum, at Village- Nandanwara, Teh.- Jatar, Distt.- Tikamgarh (M.P.) For –TOR

Environment Consultant- Ecomen Laboratories (P) Ltd. Lucknow (U.P)

This being a mining project with lease area between 50 ha to 5 ha is listed at S.N. 1(a) of schedule under 'B' Category of EIA Notification, 2006 and is to be appraised by SEAC.

This is a case of existing mine presently closed. It is an open cast / manual mining proposal. Mine is located at village – Nandanwada Tehsil- Jatar, Distt. Tikamgarh (M.P). It was informed that the mine is not operational since

1992. Mining lease has been renewed for 20 years period from 07/05/2004. The region is hilly area on the bank of Nandanwada Lake. Keshri Protected Forest is 2.2 Km, Chipra PF is 3.25 Km from the lease area boundary and other two forest land are also reported to be located in the buffer zone of the site. Nearest Habitation – Nandanwada - 2 Kms from the lease area boundary. Ultimate depth of mine is reported to be 20 m and shall not intersect ground water table. Water requirement is 9.5 KLD and source of water is lake.

After deliberation committee has decided to issue TOR to the PP for carrying out EIA / EMP with inclusion of following:

- Duly attested & certified Mining Plan approved by competent authority has to be submitted along with the copy of current lease deed and lease letter.
- Monitoring has to taken up as per the norms using appropriate air/water quality modeling, based on meteorological data (wind-rose) of the region.
- All chemical analyses report from approved laboratory in original format. The chemical analyses should incorporate method of analyses, instruments used and the details of standards used. The date and time of sampling should also be mentioned in the report.
- Total area for which afforestation has been proposed – plan stating how much plantation shall be taken up yearly, has to be submitted. Plantation of local species along with Sheesham, Neem, Tendu, Kachnar & various fire-wood trees should be taken up. Map showing green belt to be submitted.
- Plantation in at least 33% of the total area has to be ensured with the lease period; accordingly plan with map depictions has to be submitted with EIA.
- A proposal for plantation in the region between site and lake has to be furnished with EIA.
- PFR should include cost benefit analyses considering- social cost, environment cost and pre-occupational cost.

- For welfare of the mine-workers various activities such as regular health checkups, first-aid, shelter for rest and meals, drinking water etc. has to be taken up. Nearby mine owners may form a society and funds for welfare of mine-workers may be created from various govt. schemes and other sources. This aspect has to be covered in the EMP.
- Management of OB solid waste generated during mining has to be addressed through incorporation of a concrete plan for the same. The OB area should be as away as possible from the lake.
- Leachate study of OB and mineral to be furnished.
- Water-shed management plan to be submitted, in view of the damages caused in the catchment-area of rivers falling in the prescribed study area of mining region & to support the ground-water recharging.
- In land use map, details regarding the agricultural crops pattern around the mining area should also be added.
- Map depictions: coloured maps depicting land use of the region showing sensitive / fragile features and detailed lay-out of the site clearly showing green-belt (existing & planned)
- Species proposed in the green belt development should be notified.
- Satellite Image of the location of mine should be submitted with demarcation of other proposed/in operation mines in nearby area. Exact distances of nearby features have to be reported using advanced technique.
- Location is also to be shown in Tehsil map procured from revenue department.
- The EIA should be prepared based on model TOR for appraisal of mining projects issued by MoEF, Delhi

- NOC from Gram Sabha for mining as well for supply of water from the village sources.
- NOC from forest department mentioning the distances of lease area from reserve forest, wild life sanctuaries, national parks etc.
- All distances have to be reported along with GPS co-ordinates.
- Fluoride analyses in water, ground-water, soil, OB and mineral has to be carried out and reported with EIA.
- EMP should address the measures planned to protect the water bodies in vicinity of the project site.
- Notifications, Rules and Guidelines issued by MoEF and CPCB from time to time have to be followed strictly while executing the project. Accordingly, provisions have to be made in the EIA/EMP.

**10. Case no. 474/2009 - M/s Sukhdeo Prasad Goenka, Station Road, Katni Distt. - Katni (M.P.) - Harriya Limestone Mine (7.065 Ha) Cap. Enhancement from - 4000 TPA to 1.0 lac TPA, at Village- Harriya, Tehsil-Vijayraghgarh, Distt- Katni For –Revised TOR. TOR issued vide letter no 1095 dt. 05/12/09
*Environment Consultant: Creative Enviro Services, Bhopal.***

This a case submitted by PP for issue of revised TOR. Earlier TOR was issued to the PP vide letter no. 1095 dated 05/12/2009. Examination of the case reveals that the PP is interested to enhance the production capacity without any change in area or location. However, PP has proposed to change mining methodology from ‘Manual’ to ‘Other than Mechanized’. After deliberations committee has decided to issue revised TOR to the PP with inclusion of following additional points:

- All environmental quality evaluation and projections should be made for the proposed enhanced production capacity and changed methodology.
- Micro-level land-use in 2 Km around the proposed site has to be depicted on map and submitted with EIA.

- Mode of transportation of mineral with route has to be submitted.
- All calculations including generation of waste, consumption of water etc. have to be made based on proposed enhanced production capacity.
- The TOR issued vide referred letter have to be considered as such for preparing EIA/EMP.

Query Reply & Discussion

1.	<p>499/2010 Shri Rakesh Kumar Agarwal, Managing Director M/s Saurabh Metal Pvt. Ltd. Plot no.27-A, New Industrial area, Mandideep, Distt.-Raisen(M.P.) Expansion of plant capacity at Plot no.27-A, New Industrial area, Mandideep, Distt.-Raisen(M.P.) 12000 MT / Year. Case was forwarded to SEIAA with recommendation for de-listing (49th Meeting) in view of - Industrial units involving induction and other furnaces with capacity less than 30000 MT/Year would not require prior EC under the provision of amended EIA Notification dated 01/12/2009. The case falls under this category and would not require prior EC. The case was returned by SEIAA with different interpretations, the case may returned for delisting.</p>	<p>As the project does not falls under the purview of EIA Notification the case was recommended by SEAC for delisting in its 49th meeting dated 22/02/2010 but was returned by the SEIAA with some queries regarding permission from CGWA for withdrawal of water. Hence it was decided to send the case back to SEIAA for delisting.</p>
2.	<p>544/2010 M/s Anik Ferro Alloys Pvt.Ltd. 2/1, South Tukoganj, Behind High Court, Distt.-Indore(M.P.)-452001 <i>Project: Thermal power plant with prod. Capa- 25 MW at Meghnagar ,Industrial Growth Centre, Distt.-Jhabua(M.P.)</i> Committee has decided to issue TOR to the PP only after submission of supporting documents for assured supply of required quantity of coal in 57th Meeting, PP has submitted the same hence TOR may be issued.</p>	<p>PP has submitted the document pertaining to assured supply of coal. Hence committee decided to issue TOR to the PP for carrying out EIA / EMP.</p>

Narsinghpur (M.P) PP's request forwarded by SEIAA for relaxation in Stack emission limit from 50 mg/Nm³ to 150 mg/Nm³, vide SEIAA letter no. 593 dt 15/03/2010.</p>	<p>Conditional prior EC was granted to the PP vide letter dated 21/04/2009. The stack emission limits was prescribed as 50 mg/Nm³ in the EC. PP has requested for relaxation in Stack emission limit from 50 mg/Nm³ to 150 mg/Nm³ in accordance to the EPA standards. The matter was discussed in the meeting and it was found that SEAC has not forwarded any recommendation in this context. It appears that SEIAA has decided the emission limits in view of proponent's commitment in public hearing, whereby PP has made a statement before the public that the industry shall put up control equipments to keep the emissions below 50 mg/Nm³. However, according to Corporate Social Responsibility Charter (CREP), for any new / under expansion thermal power plants the emission limit shall be restricted to 100 mg/Nm³ (Copy enclosed), thus in light of above SEIAA may review its decision in the matter.</p>
