

**1. Opening Remarks of the Chairman**

The Chairman welcomed all the members of the Committee (**Annexure-1**) and thereafter agenda items were taken up for deliberations. The list of participants present during meeting is annexed as **Annexure-2**.

**2. Consideration of the Projects:**

08 Cases (for TOR / EIA deliberations) were invited. Out of these proposals only 07 proposals were presented before the committee the case no. 398/2010 scheduled for 67th meeting was also allowed for presentation. It is decided to hold the 69<sup>th</sup> & 70<sup>th</sup> meetings on 15<sup>th</sup> & 16<sup>th</sup> November 2010.

**3. Following site visits were decided by the committee:**

i) Case No. 481/2009 M/s Birla Corporation Limited (Cement Division) P.O. Birla Vikas Satna-485 005 (Meeting dated – 01/06/2010) *Proposed Captive Thermal Power Plant 35 MW (Cement Division )Project at, P.O. -Birla Vikas, District-Satna(M.P.)- as the proposed site is in proximity to the urban settlement and use of high ash content coal is proposed.- visit scheduled for 12-14 November 2010.*

ii) Case no. 492/2009 - Shri Sanktha Prasad Dwivedi, Distt-Satna-(M.P.) Jura lime stone mine 29.163 ha. at village Jura, Teh- Maihar, Distt- Satna-M.P. .- visit scheduled for 12-14 November 2010.

iii) Case No. 154/2008 - M/s Mohini Industries, propshri D. M. Gandhi, gandhiganj, at and PO- Chhindwara. Manganese Ore deposit, Village-lodhikheda, Tehsil-sausar, dist-Chhindwara. .- visit scheduled during December 2010.

iv) Case No. 158/2008 - M/s Haryana Minerals, prop. Sh. Suresh kumar Agarwal, gandhiganj, at and PO- Chhindwara, Dist-Chhindwara. Manganese Ore deposit, Village-lodhikheda, Tehsil-Susar, dist.- Chhindwara. .- visit scheduled during December 2010

v) Case No. 579/2010 M/S Shri Sandesh W.Thool, Plot No.4 Gopal Nagar, Nagpur(MH), 440022. (Meeting dated 29/09/2010) Kamathi Opencast Manganese Ore Mines\_(17.558hect) at village- Kamethi Teh: Lalbara Distt- Balaghat (MP). - Visit scheduled during December 2010

**Deliberations:**

- 1. Case No. 189/2008-** Manganese Ore India Ltd, 3 Mount Road extension, Moil Bhawan, A-1, katol Road, chhaoni, Nagpur - EIA Presentation Kanki Mining Lease for sand, taluka-waraseoni, dist- Balaghat. Mining Lease area 5.50 ha. Prod Cap. 70,000 m<sup>3</sup>/Anum

This being a mining project with lease area between 50 ha to 5 ha is listed at S.N. 1(a) of schedule under 'B' Category of EIA Notification, 2006 and is to be appraised by SEAC. TOR for carrying out EIA / EMP was issued dated 12/09/08. Conduct the public hearing dated 19/09/2009. The public hearing issues were discussed in detail. During deliberations it was reported that, this is an existing sand mine. The type of Land is Govt. Revenue Land. The site is located at 21° 50' 34" N Latitude & 80° 10' 00"E Longitude at Village-Kanki, Tehsil-Waraseoni, District-Balaghat. Nearest Railway Line Gondia-Balaghat 2.5 Km., nearest National /State Highway -26 is reported to be 1.5 Km from the site. The area comprises of sand bank of Wainganga River. The sand bank runs in North-South Direction. It was reported that there is no notified national park / sanctuary in the 10 Km radius around the site.

The deposition of sand takes place as the flood recedes. The deposits are from fine grained material to coarse material comprising essentially of feldspathic material. The deposit is by and large is seasonal and not in-situ.

The lease is acquired for mining of sand from Wainganga River. The production of the mine is 70000 m<sup>3</sup> /annum. The sand shall be extracted exclusively for filling of U/G Manganese mines. No storage facility is provided at site as the extracted sand shall be directly loaded in the truck for transportation. The proven reserves are estimated to be approximately 99,108 m<sup>3</sup> /year. For sand extraction no drilling & Blasting shall be practiced. Exploration shall be carried out by 8 pits varying in depth from 1.10 m to 1.40 m. The transport of sand from the sand ghat is through dumpers covered with tarpaulin / thick plastic sheets. The mining is confined in post monsoon season. One of the participant of public hearing demanded that the 'Kuchcha road' presently used for transportation of mineral passes from the village this road should be changed to black top road. It was also suggested that both sides of this road should be planted with trees. PP has agreed to re-construct the road with appropriate plantation along its sides.

This being a mining project with lease area between 50 ha to 5 ha is listed at S.N. 1(a) of schedule under 'B' Category of EIA Notification, 2006 and is to be appraised by SEAC. TOR for carrying out EIA / EMP was issued dated issued vide letter no 1078 dt. 19/11/09. Conduct the public hearing dated 19/09/2010. The public hearing issues were discussed in detail. This is an existing mine presently closed. The deliberation further revealed that, village Suddi is the nearest habitat at 1.0 KM from the site. River Mahanadi 1.0 Km. Nearest Reserved Forest is Ghughari at 2.0 Km. in (NW). No Archeological Monument, National Park, Wildlife Sanctuary and Interstate Boundary have been reported in the 10 Km radius around the mining site. The documents revealed that the Mining Lease is in name of Shri Ramzan Bhai with validity from 18/10/2002 to 17/02/2022. PP has requested to change the proponent's name in view of the Mining Resource Department letter no. 3-1/2002/12/2 dated 27/07/2010. The said letter states that the lease for the remaining period is transferred to Shri Ankush Pathak R/o Pathak Ward Dist. Katni (M.P). Committee has agreed to make the change as per the request of PP. After deliberations committee has asked the PP for submission of information and supporting documents on the following queries:

- Map showing micro-level features in 2Km radius around the site.
- Location of OB area to be shown on conceptual plan.
- Details of CSR activities with budgetary provision to be submitted; a commitment has to be submitted that the funds shall be spent through Gram Panchayat.
- Plantation scheme with provision to complete the desired plantation in 33% of total lease area within the lease period. Scheme should clearly indicate the species of plants to be planted. At least 2000 plants per Hectare should be planted.
- NOC from Gram Sabha for mining.

- Quantity of water required has to be submitted along with the source of the same. Capacity of the existing pits and the quantity of stored water in these pits has to be submitted as per the discussion in the meeting.
- NOC from Forest department in the prescribed format.
- Compliance of TOR.

**4. Case no. 492/2009 - Shri Sanktha Prasad Dwivedi, Distt-Satna-(M.P.) EIA Presentation** Jura lime stone mine 29.163 ha. at village Jura, Teh- Maihar, Distt-Satna-M.P. Production capacity- 50,000 T/Year.

This being a mining project with lease area between 50 ha to 5 ha is listed at S.N. 1(a) of schedule under 'B' Category of EIA Notification, 2006 and is to be appraised by SEAC. TOR for carrying out EIA / EMP was issued dated issued vide letter dated 03/04/2010. Conduct the public hearing dated 25/07/2010. The public hearing issues were discussed in detail. The deliberation further revealed that, the nearest habitat is Village Jura which is more than 500 meters. Nearest National Highway(NH-7) reported to be 1.7 Km.

It was observed that out of 29.163 Ha PP has acquired only 3 ha land. The remaining land is private land which is yet to be acquired. PP has failed to submit agreement documents regarding surface rights. Committee asked the PP to explain that how activities pertaining to mining shall be carried out in the land (3 Ha) occupied presently. Approach for the occupied site could not be explained by the PP. Committee has therefore decided to visit the site before any decision in the matter.

**5. Case no. 498/2010 - Shri Lalit Sehgal ,Rewa Road , Maihar P O Satna-(M.P.) EIA Presentation** Deori limestone, laterite, ochre & white clay mine 23.123 ha. at village Deori Taluka- Maihar, Distt-Satna-M.P.

Neither the PP nor his representative was present during the deliberation to help in understanding the documents, public hearing issues & discrepancies etc.

**6. 507/2010 - M/s Linkson Coal & Minerals Pvt.ltd., 4<sup>th</sup> Floor, Poonam Plaza,Civil Lines,Nagpur (M.H.) Ambejhari Dolomite Mine Area- 7,86 hac.Capa.- 10,000 TPM,Village- Ambejhari,Teh.-Katangi,Distt.- Balaghat (M.P.)  
For ToR**

This being a mining project with lease area between 50 ha to 5 ha is listed at S.N. 1(a) of schedule under 'B' Category of EIA Notification, 2006 and is to be appraised by SEAC. During deliberations it was reported that, this is case of fresh Mine. The project is proposed in Khasra No. is 107/4, 122,123, 124,125 at Private Revenue Land. The dolomite is considered for estimation of proved category reserves to be 7 m depth. The Geological Reserves of Dolomite is 25,37,000 Tonnes . Mineable reserves are 8,10,000 Tonnes. Proposed production 10,000 TPA of Dolomite from this mine. Anticipated life of the mine is 81 Years. The mining operation will be carried out manually by the opencast manual method. The mining operation will be done with the help of drilling and blasting in the southern part of the area. The depth of water table is reported to be 18 m to 19 m. Ultimate depth of working shall be 7 m, thus mining shall not intersect ground water table. No surface water bodies have been reported in the lease area and the adjoining area. It was reported that the project site is situated at more than 10 Km distance from the Maharashtra State Border.

After deliberations committee has approved the TOR for carrying out EIA/EMP with inclusion of following points:

- Duly attested & certified Mining Plan approved by competent authority has to be submitted along with the copy of current lease deed and lease letter.

- Monitoring has to be taken up as per the norms using appropriate air/water quality modeling, based on meteorological data (wind-rose) of the region.
- All chemical analyses report from approved laboratory in original format. The chemical analyses should incorporate method of analyses, instruments used and the details of standards used. The date and time of sampling should also be mentioned in the report.
- All monitoring has to be conducted as per the notification dated 16/11/2009.
- Total area for which afforestation has been proposed – plan stating how much plantation shall be taken up yearly, has to be submitted. Plantation of local species along with Sheesham, Neem, Tendu, Kachnar & various fire-wood trees should be taken up. Map showing green belt to be submitted.
- Plantation in at least 33% of the total area has to be ensured with the lease period; accordingly plan with map depictions has to be submitted with EIA.
- PFR should include cost benefit analyses considering- social cost, environment cost and pre-occupational cost.
- For welfare of the mine-workers various activities such as regular health checkups, first-aid, shelter for rest and meals, drinking water etc. has to be taken up. Nearby mine owners may form a society and funds for welfare of mine-workers may be created from various govt. schemes and other sources. This aspect has to be covered in the EMP.
- Management of OB solid waste generated during mining has to be addressed through incorporation of a concrete plan for the same. The OB area should be as away as possible from the water bodies in vicinity of the site.

- Water-shed management plan to be submitted, in view of the damages caused in the catchment-area of rivers falling in the prescribed study area of mining region & to support the ground-water recharging.
- In land use map, details regarding the agricultural crops pattern around the mining area should also be added.
- Map depictions: coloured maps depicting land use of the region showing sensitive / fragile features and detailed lay-out of the site clearly showing green-belt (existing & planned)
- Species proposed in the green belt development should be notified.
- Satellite Image of the location of mine should be submitted with demarcation of other proposed/in operation mines in nearby area. Exact distances of nearby features have to be reported using advanced technique.
- Location is also to be shown in Tehsil map procured from revenue department.
- The EIA should be prepared based on model TOR for appraisal of mining projects issued by MoEF, Delhi
- NOC from Gram Sabha for mining as well for supply of water from the village sources.
- NOC from forest department mentioning the distances of lease area from reserve forest, wild life sanctuaries, national parks etc.
- All distances have to be reported along with GPS co-ordinates.
- EMP should address the measures planned to protect the water bodies in vicinity of the project site.
- EIA has to be conducted by NABET approved consultant only.

- Notifications, Rules and Guidelines issued by MoEF and CPCB from time to time have to be followed strictly while executing the project. Accordingly, provisions have to be made in the EIA/EMP.

**7. 202/2008 - M/s.Shiv Shakti Trading Co., Village-Padwar, Khasra No. 1568, Teh.- Bahoriband, Dist.- Katni. EIA Presentation Padwar Bauxite, laterite and Clay Mine, Village-Padwar, Khasra No. 1568, Teh.- Bahoriband, Dist.- Katni. Mining Lease Area 7.46 Ha. Prod. Cap. 25,000 MT/A**

This being a mining project with lease area between 50 ha to 5 ha is listed at S.N. 1(a) of schedule under 'B' Category of EIA Notification, 2006 and is to be appraised by SEAC. TOR for carrying out EIA / EMP was issued dated 02/12/08. Public hearing was conducted on 17/12/2009. The public hearing issues were discussed in detail. The deliberation further revealed that, village Padwar is the nearest habitat at 1.5 KM from the site. No Archeological monuments, National Park and Wildlife Sanctuary have been reported in the 10 Km radius around the mining site. National Highway NH-7 is 4 Km from the site. The location of site is marked on Toposheet no. 64 A/2 at 230 30' 48" N Latitude and 800 04' 24" E Longitude. The type of Land is reported to be Government Revenue Land. This is a case of existing mine presently closed. Mining will be carried out by single shift involving digging, scrapping, loading & transportation by Opencast Manual mining method. The total production depends on the market requirement. Transportation of Laterite and other minerals from the mine site to the consumer center would be done by own trucks and dumpers.

After deliberations committee has asked the PP for submission of information and supporting documents on the following queries:

- Affidavit to be furnished for fulfillment of the commitments made in Public Hearing.
- Certificate from Gram Panchayat to be submitted stating present status of the land and if it is a grazing land than Gram Panchayat may certify that
