After detailed discussion and perusal of the recommendations of 202nd SEAC meeting dtd. 02.07.2015,

"This is a case of Dhandakheda Group River mining of Sand. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No. - 743, 744, 745, 825, 752 Village- Dhandakheda, Tehsil & District- Mandsaur (MP) in 12.0 ha. The project requires prior EC before commencement of any activity at site. As per the letter from Mining Officer the in principle approval of mining lease for an area of 14 Ha has been approved. Of which 12 Ha is for sand mining and 2 Ha for stone. The sand mine area is located at different sites with each site having an area of 4 Ha or less. The mining plan is only for sand mines and does not include stone. It was further observed that the areas for mining of sand are not contiguous. The environmental impacts may therefore be different for different locations. The committee is of the view that it would be more appropriate to have location specific appraisal.

As per the MoEF O.M. no. J-13012/12/2013-IA dated 24/12/2013 also no river sand mining project with lease area less than 5 Ha may be considered for granting EC.

It was therefore decided that the project cannot be recommended for grant of EC in the present form. The case may therefore be referred back to SEIAA."

SEIAA has decided to return the case back to Collector, Mandsour with specific instructions to advise PP for applying for Prior EC at different locations separately.
