2. **Case No.4410/15** Prior Environment Clearance for **Sand Quarry** (opencast manual method) in an area of 18.770 ha. for production capacity of 50000 cum/year (as per **SEAC recommendation**) at Khasra no.-855, Village-Babupur, Tehsil-Dabra, District-Gwalior (MP) by Shri Kailash Chandra Gupta, M/s Shiva Corporation India Pvt. Ltd., 312, Ganpati Plaza, MIG Road, District-Jaipur (Raj.).

After perusal of the query response in 311<sup>th</sup> SEIAA meeting dtd. 31.03.2016 and recommendations of 14<sup>th</sup> SEAC-II meeting dtd. 22.03.2016, it was reported that :-

"...As above, the case was presented by the PP and their consultant wherein it was observed that as per the Google image of dated 05/10/2015 & 26/12/2015 based on the co-ordinates provided by the PP only 15% area seems to be minable. PP submitted that the present image is off October, 2015 and December, 2015 and water level recedes gradually in the subsequent months and area become minable for the desired quantity of sand i.e. 75,080 cum/year. The committee decided that as the mining area is 18.770 ha and if 15% area is minable as per the Google image, the effective minable area comes to 2.81 ha. As per the mining plan, the proposed depth is 2.00 meters and PP has also proposed in the mine plan that if "MPSEIAA reduce in production of sand mining activity sub lessee will be restricted for that quantity". Thus

committee decided to reduce the quantity considering the submergence of lease area in water to 50,000 cum/year.

The submission made by PP were found satisfactory and acceptable and thus the committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'B':

- Production of Sand as per mine plan with quantity not exceeding 50,000 cum/year.
- District Authority should record the deposition of sand in the lease area at an interval of 100 meters annually in the last week of September and maintain the records in RL (Reduce Level) Measurement Book. Accordingly authority may allow lease holder to excavate the replenished quantity of sand in the subsequent year.
- Evacuation of sand should not be allowed through the roads passing through the villages.
- Heavy vehicles (Hywa) should not be allowed on Kachcha, narrow roads.
- If causeway (Rapta) is required to be constructed for mining. It should be removed completely before rainy season every year.
- The river bank from where access ramps are made should be restored and access should be closed every year before rainy season.
- No diversion of active channel should be allowed for mining."

OIC of M.P. State Mining Corporation presented the quantities of sand excavated from the present site from Jan. 2011 to Dec. 2015 and it was revealed that the production capacity ranges from 24000 to 50000 cum/year. From the photographs taken recently also reveals the quantum of material recommended in SEAC meeting i.e. 50000 cum/year.

After detailed discussions on the above recommendations it was decided to grant Prior Environmental Clearance subject to the following specific conditions in addition to the conditions imposed by SEAC

- I. PP shall not start mining activity before execution of lease agreement.
- II. The production capacity shall be limited to the quantity proposed by SEAC-II.
- III. The lease area should be properly demarcated in the presence of the Revenue & Mining Officials and proper boundary stones should be established.
- IV. No in-stream mining shall be allowed. The local authorities should ensure that the mining activity is confined only in the dry portion of the river where sand is exposed.
- V. The depth of the pit shall not exceed 2.0 m or normal water level prevalent in the lean season whichever is less.
- VI. The final decision of Hon'ble NGT (CZ) Bhopal and Hon'ble NGT Principal Bench, New Delhi in OA No. 49/2015 (Amarkant Mishra Vs State of MP & others), shall be obligatory on the part of PP.
- VII. PP should ensure that no access ramps are made for transportation of sand from the opposite bank of the river.
- VIII. Before commencing the mining activity, site demarcation should be done leaving 100m. from nearest village settlement as a "no mining zone". The demarcation should be done by the Revenue Officials in the presence of Mining Officer, Gwalior.

- IX. No transportation should be carried out through the village. A transportation plan in consultation with the local gram panchayat should be prepared to bypass the passage through the village.
- X. The entire lease area should be properly fenced and boundary stones marked at the site.
- XI. PP should ensure that the flow of river should not be affected due the access ramps.
- XII. PP will ensure three row plantation towards the village settlement side in the entire length of suitable species three year old to conserve and retain the banks.

Hence, Prior Environmental Clearance is granted **Sand Quarry** (opencast manual method) in an area of 18.770 ha. for production capacity of 50000 cum/year (**as per SEAC recommendation**) at Khasra no.-855, Village-Babupur, Tehsil-Dabra, District-Gwalior (MP) **for the lease period** to Shri Kailash Chandra Gupta, M/s Shiva Corporation India Pvt. *"The case was presented by the PP and their consultant. During presentation it was observed by the committee that as per the Google image of April, 2014 based on the co-ordinates provided by the PP, the most part of lease area is submerged in water even in the image of April (summer season). During presentation PP also confirm that the entire lease area is submerged in the water which is also evident from the Google image submitted by the PP with presentation. Thus committee after deliberations recommended that since the entire lease area is submerged in water, the environmental clearance for this site can not be considered."*

OIC, M.P. State Mining Corporation was invited to explain the production capacity and proposed area under mining as per the mining plan in the light of the above observation of SEAC. He has submitted recent photographs and the production capacity of the last five years. The case is returned to SEAC with the instructions to hear the OIC, M.P.
