PP has submitted the mining plan duly approved by competent authority. Air and Water consent and total material excavated during the EC period. It has been decided to send the case to SEAC for appraisal".

During presentation PP submitted that very minimum volume of mineral is excavated from the site as the mineral required for the project was held up due to some clearances from the other departments. After presentation, PP was asked to submit details on following:

1. *Point wise compliance of earlier EC conditions with recent photographs.*
2. *Point wise compliance of consent conditions of the MP Pollution Control Board."*

This is a case where the EC was issued from SEIAA and PP has come for extension of EC validity in view of extension of lease period for two years granted by Collector, Sehore.
