thus it is beyond the 10 kms limits. Committee observed that in 304th SEAC meeting Dated 15/01/2018 it was discussed that in light of Eco Sensitive Zone of Ken Ghariyal Sanctuary notification published by MoEF&CC, Gol, No. S.O. 3082 on dtd.19.09.2017 (E) wherein it is stated that Eco Sensitive Zone in case of Ken Ghariyal Sanctuary has been fixed with an extent of 200 m from the boundary of the Ken Ghariyal Sanctuary and this QL area lies at distance of about 4.5 km from the Ken Ghariyal Sanctuary which is suitably away from the 200 meter restricted area.

The project comes under consideration due to Policy Decision -Regarding EIA of Meghnagar Industrial Area in 250th SEIAA meeting dtd. 14.10.2015 as follows:

It has come to the notice of SEIAA that recently the residents of Meghnagar agitated over the issue of industrial pollution from Meghnagar Industrial area. They were discontented from the industrial effluent converging the water source reserved for the residents of Meghnagar. Since new chemical industries are in the process of being established, it is pertinent to note that no Public Hearing is required in the industrial estates as per the new MoEF, guidelines. Therefore it is imperative to have an in depth and critical examination of the industries located within the Industrial area and the industries to be established in the near future. MD, AVN, Bhopal may be directed to have a rapid Environmental Impact Assessment (EIA) conducted for the entire Meghnagar Industrial Area. Copy to be forwarded to SEAC for issue of appropriate ToR in this regard on the request to be submitted by AVN. SEAC on its own should also make a site visit before recommending the cases of Chemical Plants to SEIAA.

AS per above decision of the authority the EIA prepared by AKVN and the same was discussed in 295th SEAC meeting dtd. 06.11.2017 and recorded that :-
