

Minutes of the 556th Meeting of SEIAA dated. 13.06.2019

The 556th meeting of the State Level Environment Impact Assessment Authority was convened on 13.06.2019 at the Authority's Office in Environmental Planning and Co-Ordination Organization (EPCO), Paryavaran Parisar, Bhopal. The meeting was chaired by Shri Rakesh K. Shrivastava, Chairman, SEIAA. The following members attended the meeting:-

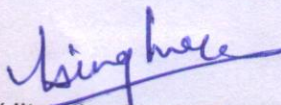

- | | |
|------------------------------|------------------|
| 1. Shri R.K. Sharma | Member |
| 2. Shri Jitendra Singh Rajee | Member Secretary |

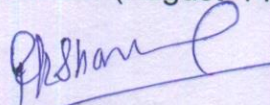

A. Following mining and other than mining cases have been considered:-

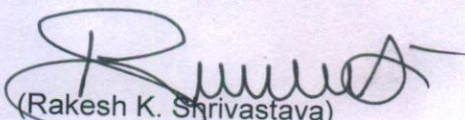

S.No.	Case No.	Category	No. & date of latest SEAC & SEIAA meeting
1.	5583/2017	1(c)	373 rd SEAC meeting dated 24.05.2019
2.	6174/2019	1(a)	371 st SEAC meeting dated 21.05.2019
3.	6214/2019	1(a)	371 st SEAC meeting dated 21.05.2019
4.	6138/2019	1(a)	373 rd SEAC meeting dated 24.05.2019
5.	6207/2019	1(a)	374 th SEAC meeting dated 25.05.2019
6.	5921/2019	1(a)	374 th SEAC meeting dated 25.05.2019
7.	6159/2019	1(a)	372 nd SEAC meeting dated 22.05.2019
8.	6228/2019	1(a)	372 nd SEAC meeting dated 22.05.2019
9.	6003/2019	1(a)	358 th SEAC meeting dated 09.04.2019
10.	5960/2019	1(a)	369 th SEAC meeting dated 03.05.2019
11.	6229/2019	1(a)	370 th SEAC meeting dated 20.05.2019
12.	6095/2019	1(a)	374 th SEAC meeting dated 25.05.2019

15.	6084/2019	1(a)	374 th SEAC meeting dated 25.05.2019
16.	5957/2019	1(a)	374 th SEAC meeting dated 25.05.2019
17.	5695/2018	1(a)	553 rd SEIAA meeting dated 08.06.2019

1. **Case No. - 5583/2017** Prior Environment Clearance for Kadan Medium Irrigation Project at Village Ekpana Basona, Distt. - Sagar, (M.P.) CCA - 9990 ha Gross Command area: 13500 ha; Live storage capacity - 40.05 MCM; Gross Storage- 42.66 Mcum; Submergence due to Project- 754.78 ha; Catchment Area up to Dam site- 181.25 sq km; by Executive Engineer, Water Resources Department, Water Resources Division No. 1, Sagar, (M.P.) Env't. Consultant :- R.S. Envirolink Technologies Pvt.Ltd., Gurgaon

1. The project proposes construction of a 23.70m high dam across Kadan River in Dhasan Ken Basin near Ekpana Basona village and planned to cater irrigation water to 9,990 ha of CCA in 49 villages of Sagar, Malthon and Rahatgarh tehsils of Sagar district.
2. The total catchment area of the project is 181.25 sq.km. The project is envisaged to have a live storage capacity of 40.05 MCM, of which, 0.5 MCM is reserved for drinking water and 0.5 MCM is reserved for e-flow.
3. The project pertains to Item No. 1(c) category 'B' of the EIA Notification 2006 schedule and in terms of Notification dated, 25th June, 2014, as the CCA of the project is less than 10000 ha.
4. The project has a command area of 9,990 ha, therefore as per EIA notification of September 2006 and a recent amendment (August 14, 2018), it is a Category B2

(Jitendra Singh Rajee)
Member Secretary

(R.K. Sharma)
Member

(Rakesh K. Shrivastava)
Chairman

Minutes of the 556th Meeting of SEIAA dated. 13.06.2019

project (Medium irrigation project having CCA > 2000 ha and < 10000 ha)". And Being a B2 Category project, it does not require an EIA report and is exempt from Public Hearing; it require submission of EMP only However, Scoping Clearance of the project was taken as Category B1 (prior to August 2018 amendment).

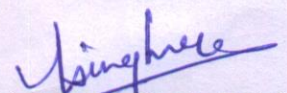

5. There is no wildlife sanctuary, National park (DFO letter dtd. 26.05.17) or interstate boundaries (PWD letter dtd. 19.05.17) within 10 km of the project area hence general conditions are not attracted.
6. Terms of Reference (ToR) were issued by the State Level Expert Appraisal Committee, Madhya Pradesh vide letter no. 546/PS-MS/MPPCB/SEAC/TOR(297)/2017 dated December 13, 2017 for CCA 9990 ha and ToR approved in 456th SEIAA meeting dtd. 16.11.17. EIA report submitted by PP on 09.01.19.
7. The case was discussed in SEAC meetings 297th SEAC meeting dated 08.11.17 340th meeting dtd. 30.01. 2019, and 373rd dtd. 24.05.19 and recommended for grant of prior EC subject to special conditions.
8. After recommendation the case was discussed in 553rd SEIAA meeting dtd. 08.06.19 and decided to PP may call for presentation.
9. After deliberations by PP the case was discussed in depth & it is noted that:-
 - i. The total land requirement for proposed project is 754.78 ha; out of which, 439.32 ha is culturable land (private land), 248.76 ha is forest land and 66.70 ha is revenue land.
 - ii. For diversion of forest land 248.76 ha PP has obtained Stage I Forest Clearance from MoEF&CC vide their Letter No. F. No. 8-11/2018-FC dated 18/06/2018 .Entire 248.76 ha of forest land is Reserve Forest.

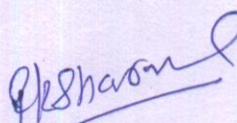

All the vegetation on 248.76 ha land will be cleared for construction of project component. Against the diversion of forest land PP has proposed 1832 trees will be felled.

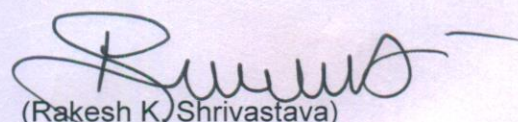

This is a permanent impact and can only be compensated by Compensatory Afforestation, which an already been approved as part of Stage I Forest Clearance.

Private Land Acquisition Status - Copy of Notification u/s 19, 21 & 24 -

- For acquisition of private land, notification u/s 11, 19 and 21 has been issued for entire private land of 439.32 ha covering 9 villages
- Section 24 award is completed for 5 out of 9 villages
- An amount of Rs. 89 crore has already been deposited with the government by project authorities.

(Jitendra Singh Rajee)
Member Secretary

(R.K. Sharma)
Member

(Rakesh K. Shrivastava)
Chairman

Minutes of the 556th Meeting of SEIAA dated. 13.06.2019

- iii. Total 9 villages are coming under submergence, of which, 1 village named Khanpur is coming under full submergence.
- iv. There are 216 project affected families (527 PAPs), who are identified as the families whose land and/or houses will be acquired for the project. 5 ha land area is identified near village Silera for resettlement. 204 families from 5 villages will be resettled in the pre-identified location near village Silera, whereas, 12 families are those who have constructed house for looking after their agricultural fields and are residing at some other location, therefore, these 12 families will not be resettled. The rehabilitation and resettlement plan for the project affected families has been formulated as per the provisions of The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (RFCT_LARR). Financial requirement for implementation of the Rehabilitation and Resettlement plan and infrastructural facilities is Rs 6.01 Crore.

S. No.	R&R Components	Cost (Rs in crore)
1	Rehabilitation Grant	2.4639
2	Infrastructure in Resettlement Area	3.0500
3	Monitoring and Evaluation	0.5000
	Total	6.0139

The Resettlement and Rehabilitation plan of the proposed Kadan Medium Irrigation project has been approved by the Commissioner, District Sagar.

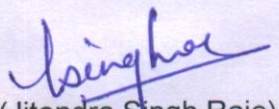

- v. Since the project will benefit 49 villages therefore in interest of large scale benefit to the neighbouring as well as adjoining villages, people from project affected villages are willing to relocate.

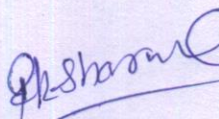

They will be relocated outside the submergence area in one of the affected village i.e. Silera. Therefore, they will not be moving at a far distance and therefore, there won't be much of a change in their livelihood or surrounding environment.

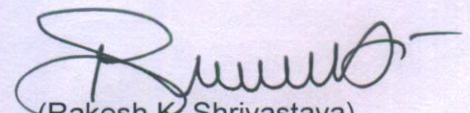

Affected villagers are expecting that there will be much better infrastructural facilities like, drinking water, drainage system, education, health care etc. in the rehabilitated site.

Most of the affected villages indulge in dairy farming and have good number of livestock population therefore they expect sufficient area for not only construction of house but construction of animal shed as well.

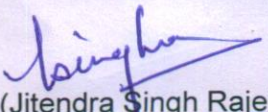

- vi. The crop intensity has been adopted as 100% during Rabi season only, with 3.5 cumec design discharge.

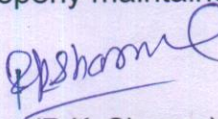

(Jitendra Singh Raje)
Member Secretary

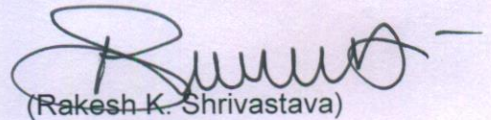

(R.K. Sharma)
Member

(Rakesh K. Shrivastava)
Chairman

- vii. Agriculture is the main occupation in the area and they have very fertile soil but due to limited extraction of ground water and low rainfall, there is acute shortage of water especially during Rabi season. Lack of irrigation facility results in low income from crop production.
- viii. The major sources of air pollution during construction phase are: Pollution due to fuel combustion in various equipment, emission from various construction plants, fugitive emissions from material handling and transportation. During operation phase, no major impacts are envisaged on air quality. For control of air pollution PP has proposed as follows:
- For all major construction activities, curtaining of the site will be done to protect the surrounding areas from dust emissions.
 - In addition, regular sprinkling of the water will be done on construction sites for dust suppression.
 - All construction equipment/machinery will be properly maintained and tuned to minimize emissions.
 - Mobile DG sets shall be used for lighting only during construction phase and they should meet emission and noise standards as per guidelines/standards issued by CPCB.
 - The entire contractor's vehicle should have valid PUC certificate and same condition may be enforced on transporters bringing in material for construction.
 - Road damage caused by sub-project activities will be promptly attended to with proper road repair and maintenance work.
 - Excessive soil on paved areas will be sprayed (wet) and/or swept and unpaved areas will be sprayed and/or mulched.
 - All the construction workers and other staff, who get directly exposed to dust, should necessarily be provided with dust masks.
 - In addition, the project authorities will work closely with representatives from the community living in the vicinity of project area to identify areas of concern and to mitigate dust-related impacts effectively.
- ix. Sources of noise will be the vehicles and equipment for excavation and construction. Impacts will remain limited to the work area mainly where large-scale construction activity will progress. Impact will not be significant for the locals as they are generally sufficient distance away from the work area and noise will attenuate substantially at their locations. During operation phase, no major impacts are envisaged. Following mitigation measures will be implemented to minimize the impact of high noise:
- Contractors will be required to maintain proper functioning of equipment and comply with occupational safety and health standards. DG sets will have a valid Type Approval Certificate and Conformity of Production certificate as per CPCB guidelines.
 - All the construction equipment will be required to use available noise suppression devices and properly maintained mufflers.

(Jitendra Singh Raje)
Member Secretary

(R.K. Sharma)
Member

(Rakesh K. Shrivastava)
Chairman

- Workers in high noise area will be provided with ear muffs and their use will be monitored. Workers exposure (time duration) to high noise will also be controlled.
- Minimize the use of noise producing equipment during night hours to avoid the disturbance to locals and wild animals of surrounding area.
- Monitoring of noise levels will be conducted during construction phase of the project. In case of exceeding of pre-determined acceptable noise levels by the machinery; will require the contractor(s) to stop work and remedy the situation prior to continuing construction.
- Vehicles to be equipped with mufflers recommended by the vehicle manufacturer.

x. Impact due to runoff from construction sites are as follows:

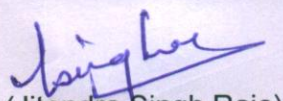

- Water used in construction activities leads to wastewater generation with high suspended solids.
- Effluents due to washing from truck or equipment etc. would have high concentration of oil and grease.
- Quantum of wastewater from such activities can impact the nearby water bodies if surface run off with high suspended solid is washed into them.
- However, keeping in view the type of project, only small quantity of water would be used in the construction activities as work mainly pertains to the laying of pipeline.

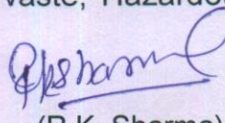

Mitigation Measures for runoff from construction sites:

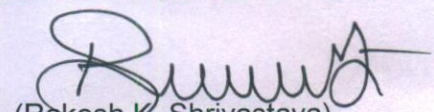

- Conservation of water should be implemented at construction sites to minimize the generation of wastewater.
- Adequate care should be taken so that excess suspended solids in the wastewater are removed before these are disposed into water body or over land.
- However, keeping in view the type of project, only small quantity of water would be used in the construction activities as work mainly pertains to the laying of pipeline.

- xi. No adverse impact on any downstream users is expected as sufficient discharge will be available downstream of dam.
- xii. Total excavated surplus material requiring disposal is estimated as **1121403.01 m³**. For construction of the earthen dam, material will be sought from Borrow areas located under proposed submergence area; surplus muck will be used for refilling and reclamation of land of borrow sites. Additional muck, if any, requiring disposal will be put in suitable low lying areas in the surrounding. The extra muck shall be laid in the undulating area of the connected villages with the consent of concerning Gram-panchayat or Janpad Panchayat.

- xiii. **Construction activities are associated with 3 types of waste generation:**
Construction and Demolition Waste, Hazardous Waste, Municipal Solid Waste

(Jitendra Singh Rajee)
Member Secretary

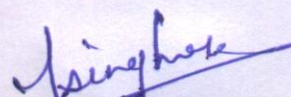

(R.K. Sharma)
Member

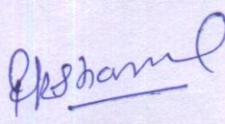

(Rakesh K. Shrivastava)
Chairman

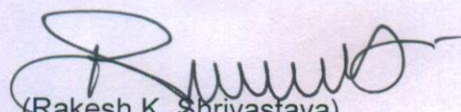

from labour camp s/colonies etc. Following mitigation measures has been proposed for waste management:

- Collection of Municipal Solid Wastes.
- Segregation of Municipal Solid Wastes.
- Storage of Municipal Solid Wastes.
- Transportation of Municipal Solid Wastes.
- Processing of Solid Wastes.
- Disposal of Municipal Solid Wastes.

- xiv. CAT Plan has been formulated for the catchment of Kadan river from its source till the diversion site of Kadan medium irrigation project. The catchment area is **181.25 sq km**. Silt Yield Index (SYI) method has been used for the preparation of CAT plan. Various data used for the study are slope, soil, land use/ land cover, drainage and current management practices. Under the plan, various biological and engineering treatment measures has been suggested for severe and very severe erosion prone areas. The estimated cost of implementation of CAT plan is Rs. 78.50 lakh
- xv. Disaster Management Plan has been prepared to deal with dam break event; with a budget of Rs. 60.00 lakh to cover the cost of alert system, communication system, emergency response organization, public information system, maintenance period, etc
- xvi. Agriculture is the main occupation in the area and they have very fertile soil but due to limited extraction of ground water and low rainfall, there is acute shortage of water especially during Rabi season. Lack of irrigation facility results in low income from crop production. In search of livelihood and better job opportunities people migrate towards the cities of Madhya Pradesh and Gujarat.
- xvii. The green belt is proposed to be developed within the project area around reservoir periphery, along the network of approach roads, residential areas and other working areas like crushing and aggregate processing plant, batching plant and workshops.
- Area estimated for green belt development in different patches is about 50 ha and a total of about 45000 saplings will be planted. Plantations work will be completed in 2 years time (30000 in first year and 15000 in second year including causality replacement) and will be maintained for five years by project authorities.
- xviii. **Benefit of the project:** Control flood waters to protect people and property. Adequate supply of water for irrigation and house hold consumption during dry spells in Saga region. Improve crop production by providing irrigation to crop land. Agriculture extension and horticulture development.

Permanent waterfront for wildlife. Recreation like fishing, camping and water sporting in the reservoir.

It is decided to accept the recommendations of 373rd SEAC meeting dtd. 24.05.19 with special conditions and grant Prior Environmental Clearance for proposed Kadan Medium Irrigation Project at Village Ekpana Basona, Distt. - Sagar, (M.P.) CCA – 9990 ha Gross Command area: 13500 ha; Live storage capacity - 40.05 MCM; Gross Storage- 42.66 M.cum; Submergence due to Project- 754.78 ha; Catchment Area up to Dam site- 181.25 sq km; by Executive Engineer, Water Resources Department, Water Resources Division No. 1, Sagar, (M.P.), subject to the following specific conditions:-

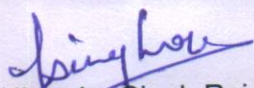

1. The inputs given by the participants during Public hearing should be properly redressed. All the promises and assurances made during the public hearing shall be fulfilled completely by the water resources department GoMP. The implementation of R & R Plan to be closely monitored to ensure that all project affected families (PAFs) get adequate & timely compensation.
2. Besides the agricultural land, the rehabilitation of public buildings, infrastructures, monument etc. falling in the submergence area should also be included in the rehabilitation plan.
3. It was observed by the authority the calculated compensation under R/R seems inadequate hence authority advised WRD to look into the matter and explore the possibility of giving compensation to affected people equivalent to their properties so that proper justice can be given.
4. A monitoring Committee for R & R shall be constituted which must include representatives of project affected persons including from SC/ST community and at least a woman beneficiary.
5. A grievances redress mechanism is to be devised by WRD GoMP and put in place so that aggrieved PAFs and other stakeholders may approach the Authority easily for resolution of any dispute/conflict.
6. The implementation of Local Area Development Plan (LADP) to be closely monitored.
7. This being a seasonal stream/ river, a minimum environmental flow of 30 % in monsoon season should be released for downstream users.
8. Proposed Compensatory Afforestation programme in 50ha shall be taken-up in consultation with State Forest Department. The allocated grant for this purpose shall be fully utilized and not to be diverted for any other purpose. For compensatory afforestation programme, preference shall be given to native species.
9. Proposed Bio-diversity Conservation & Management Plan in EMP report should be implemented with State Forest Department. The allocated budget for this purpose shall be fully utilized and not to be diverted for any other purpose.

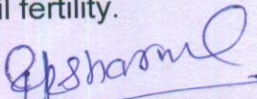

(Jitendra Singh Raje)
Member Secretary

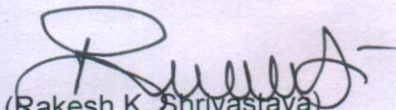

(R.K. Sharma)
Member

(Rakesh K. Shrivastava)
Chairman

10. For prevention of soil erosion PP has proposed The catchment Area Treatment (CAT) Plan in EMP report shall be strictly implemented in consultation with Madhya Pradesh State Forest Department. Major works shall be completed before impounding of reservoir. The financial allocation for CAT Plan implementation shall be fully utilized and not to be diverted for any other purpose. Catchment Area Treatment Plan as has been proposed should be completed in five years.
11. To enhance the natural environmental quality & aesthetics of project site, greenbelt, as proposed in the EMP Report shall be undertaken in 20 ha of area. Allocated grant for this purpose shall be fully utilised and not to be diverted for any other purpose.
12. Fishery conservation & management plan as proposed shall be implemented in consultation with the Fisheries Department, Government of Madhya Pradesh.. The stocking density of the reservoir shall be around 300 fingerlings per ha. Allocated grant for this purpose shall be fully utilised and not to be diverted for any other purpose.
13. Occurrence of stagnant pools/slow moving water channels during construction and operation of the project may provide breeding source for vector mosquitoes and other parasites. The river should be properly channelized so that no small pools and puddles are allowed to be formed. Even after taking precaution, due to unforeseen situations, breeding of mosquito and resultant malaria or mosquito borne diseases can increase. If such a situation arises, it will be the responsibility of project authorities to take all steps i.e. residual insecticidal spray in all the project area and surrounding 3 km. Area keeping the flight range of mosquitoes in consideration. Also medical assistance to be provided to the affected people at the cost of the developer and appropriate health benefits may be initiated with the help of State Health Department.
14. If the water of reservoir is used for drinking water supply, it should be done after conventional treatment.
15. Regular monitoring of water quality (Surface and Ground) including heavy metals shall be undertaken in the project area and around the project area to ascertain the change, if any, in the water quality due to leaching of contaminants, if any, from the increased use of chemical fertilizers and pesticides.
16. Conjunctive use of surface water shall be planned to check water logging as well as to increase productivity.
17. Consolidation and compaction of the generated muck should be carried-out in the muck dumping site. The entire muck should be utilized for service road and inspection path, formation of embankment, filling trenches, land levelling and construction of CD works etc. The muck disposal sites shall be reclaimed /restored with vegetation once the capacity is utilized.
18. The periodical soil health shall be verified in command area during operation phase to ensure the maintenance of soil fertility.

19. PP should ensure to compliance the condition laid down the forest clearance approval issued by MoEF & CC, Gol.
20. PP should ensure to submit half yearly compliance report and CSR activity report with photographs of plantation in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,Gol,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.
2. **Case No.6174/2019** – Prior Environmental Clearance for Murrum Quarry (Open cast manual /semi mechanized method) in an area of 4.0 ha. for production capacity of 40000 cum / year at Khasra No. 153 at Village - Mudara, Tehsil - Niwari, Dist. Niwari (MP) by Shri Ramesh Napit, Village - Mudara, Tehsil - Niwari, Dist. Niwari, MP - 472442

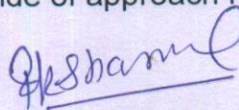

This case was recommended in 371st SEAC dated 21.05.2019 and it was recorded that.....

----- PP has submitted the response of above quarries same date vide letter dated 21.05.2019, which was placed before the committee and the same found satisfactory. The EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence committee after deliberation found that The EMS and other submissions made by the PP were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'A':

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. **After detailed discussions and perusal of recommendations of 371st SEAC dated 21.05.2019, presentation made by the PP in SEIAA, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:-**

- I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of lease area to avoid any untoward incident involving public and animals by the PP.
- II. PP shall not start mining activity before execution of lease agreement.
- III. The depth of the pit shall be as per the Approved Mining Plan.
- IV. PP shall leave setback of 10 meters as no mining zone in the lease from road along with thick three rows plantation towards road side.
- V. PP shall raise thick plantation and 6 meters height wind breaking wall towards settlement shall be developed by PP. The entire area shall be fenced and three rows of plantation should be done on the periphery of the boundary.
- VI. PP shall ensure that the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.
- VII. PP shall ensure to construct and maintained the approach road. Plantation will be carried out on both side of approach road.

(Jitendra Singh Rajee)
Member Secretary

(R.K. Sharma)
Member

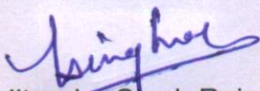

(Rakesh K. Shrivastava)
Chairman

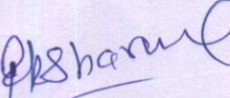

- VIII. PP shall ensure protection and conservation of existing trees falling under mining lease area and in no way these will be permitted to be cut / uprooted without prior permission of concerned authority.
- IX. PP shall ensure to construct appropriate size garland drain & settling tank all around the lease area
- X. Blasting in any case will not be done in for mining in the lease area.
- XI. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road & as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.
- XII. Total 3900 saplings shall be planted by PP in three years under plantation programme suitable indigenous tree species Lease boundary, approach road & towards pakka road. Plantation of Neem, Peepal, Aam, Jamun, Bargad, Aonla etc. on priority shall be ensured by PP.
- XIII. PP must ensure implementation of the following activities with separate budget provision of Rs.0.80 lakhs under CSR
- (a) Repairing & whitewash of village Aanganwadi at village Mudara (1-year).
 - (b) Construction of Parapet around village dug well (ring well) & concreting of the surface around it in addition to the construction of drainage at village Katarban (2- year).
 - (c) Repairing and white wash of school building & leveling of school play ground at village Devendrapura (3- year).
 - (d) Construction of Yaatri shed at village Jawan common area (4- year).
 - (e) Supply of basic school furniture in a village school for 70 students (@ Rs. 2,000 per set for 70 students and total 35 sets) at village Churara (5- year)

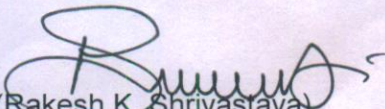

The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat

- XIV. PP should ensure to submit half yearly compliance report and CSR activity report with photographs of plantation in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC, GoI, Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Murrum Quarry (Open cast manual /semi mechanized method) in an area of 4.0 ha. for production capacity of 40000 cum / year at Khasra No. 153 at Village - Mudara, Tehsil - Niwari, Dist. Niwari (MP) for the lease period to Shri Ramesh Napit, Village - Mudara, Tehsil - Niwari, Dist. Niwari, MP – 472442 .

3. **Case No.6214/2019** – Prior Environmental Clearance for Stone Quarry (Open cast manual /semi mechanized method) in an area of 1.70 ha. for production capacity of 21660 cum / year at Khasra No. 327/1 at Village - Sehra, Tehsil - Betul, Dist. Betul (MP) by M/s Maa Kaali Stone Crusher, Shri Gourav Rathore (Partner), Betul Ganj, Dist. Betul, MP - 460001

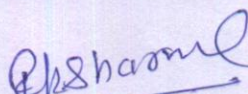

This case was recommended in 371st SEAC dated 21.05.2019 and it was recorded that.....

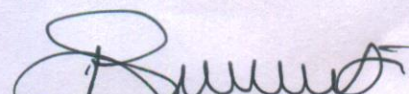

----- PP has submitted the response of above quarries same date vide letter dated 21.05.2019, which was placed before the committee and the same found satisfactory. The EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence committee after deliberation found that The EMS and other submissions made by the PP were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'A':

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. **After detailed discussions and perusal of recommendations of 371st SEAC dated 21.05.2019, presentation made by the PP in SEIAA, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:-**

- I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of lease area to avoid any untoward incident involving public and animals by the PP.
- II. PP shall not start mining activity before execution of lease agreement.
- III. The depth of the pit shall be as per the Approved Mining Plan.
- IV. The entire area shall be fenced and three rows of plantation should be done on the periphery of the boundary.
- V. PP shall ensure that the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.
- VI. PP shall leave 50 m from the nalla as no mining zone and raise thick plantation in this direction.
- VII. PP shall ensure to construct and maintained the approach road. Plantation will be carried out on both side of approach road.
- VIII. PP wil not installed crusher in the lease area as committed.
- IX. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road & as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.
- X. Total 1800 saplings shall be planted by PP in three years under plantation programme suitable indigenous tree species Lease boundary, approach road & towards pakka road. Plantation of Neem, Peepal, Aam, Sheesham , Karanj, Banyan etc. on priority shall be ensured by PP.

(Jitendra Singh Rajee)

- XI. PP must ensure implementation of the following activities with separate budget provision of Rs.1.00 lakh under CSR
- (a) Construction of a dumping yard at a common village area & installation of four dust bins at different locations for the collection & storage of village waste, Distribution of sport kits to the students in a village school at village Sehra (1- year).
 - (b) Construction of Yaatri shed and sitting facility at village Churni (2- year).
 - (c) Installation a hand pump at village common area & concreting of the surface around the hand pump at village Nayegaon (3- year).
 - (d) Repairing and white wash of village Aanganwadi including construction of its toilet at village Pipla (4- year).
 - (a) Tanker water supply to a common overhead tank in the village so that water is accessible to all during summer (Rs. 300 per tanker, 2 trips per day for 4 months) at village Sehra (5- year).

The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat

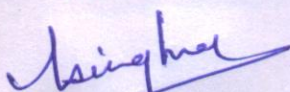

- XII. PP should ensure to submit half yearly compliance report and CSR activity report with photographs of plantation in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

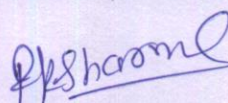

Hence, Prior Environmental Clearance is granted for Stone Quarry (Open cast manual /semi mechanized method) in an area of 1.70 ha. for production capacity of 21660 cum / year at Khasra No. 327/1 at Village - Sehra, Tehsil - Betul, Dist. Betul (MP) for the lease period to M/s Maa Kaali Stone Crusher, Shri Gourav Rathore (Partner), Betul Ganj, Dist. Betul, MP - 460001.

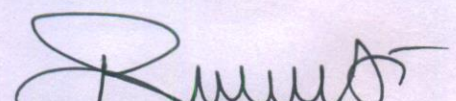

4. **Case No.6138/2019 – Prior Environmental Clearance for Granite Deposit -Decorative Stone (Open cast semi mechanized method) in an area of 4.06 ha. for production capacity of 4537 cum/ year at Khasra No. 235 at Village - Kiwati, Tehsil - Gaurihar, Dist. Chhatarpur (MP) by M/s Lithos Granito (India) Pvt. Ltd, Smt. Shashi Malu, Director, 1089, 1st Floor, Vikram Square, Scheme No. 71, Dist. Indore, MP**

This case was recommended in 373rd SEAC dated 24.05.2019.and it was recorded that.....

----- PP has submitted the response of above quarries on dated vide letter dated 22.05.2019 and presented the query reply with showing Drone photography around the lease area .The committee after presentation found reply satisfactory. The EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence committee after deliberation found that The EMS and other submissions made by the PP were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'A':

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. **After detailed discussions and perusal of recommendations of 373rd SEAC dated 24.05.2019, presentation made by the PP in SEIAA, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:-**

- I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of lease area to avoid any untoward incident involving public and animals by the PP.
- II. PP shall not start mining activity before execution of lease agreement.
- III. The depth of the pit shall be as per the Approved Mining Plan.
- IV. The entire area shall be fenced and three rows of plantation should be done on the periphery of the boundary.
- V. PP shall ensure that the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.
- VI. PP shall ensure to construct and maintained the approach road. Plantation will be carried out on both side of approach road.
- VII. PP shall ensure to construct appropriate size garland drain & settling tank all around the lease area
- VIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road & as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.
- IX. Total 4000 saplings shall be planted by PP in three years under plantation programme suitable indigenous tree species Lease boundary, approach road & towards village side. Plantation of Neem, Peepal, Aam, Mahua, Bargad, Drumstics etc. on priority shall be ensured by PP.
- X. PP must ensure implementation of the following activities with separate budget provision of Rs.4.0 lakh/year under CSR
 - (a) Water Filter for primary schools village Kwity & Kalnyanpur, Chhitahari sani.
 - (b) Provide seesaw, slide & swing in nearby school.
 - (c) Distribution of Sport Kits for football, volley ball, repairing of black board, boundary wall & play ground for middle school at Gahabra.
 - (d) Distribution of furnitures for teaching staff at Gahabra..
 - (e) Book donation to Gorihar higher secondary school library.
 - (f) Donation to ideal farmer for drip irrigation and organic farming.

The modification to the above activities can be made with the permission of the district administration and need based activity for

- b. Provide to 1 water filter per year per village in villages name
1. Shekhukheda, 2. Guradiya Bada, 3. Bhau Kheda, 4. Guadiya
Manda, 5. Khajuriya Jawar.

The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

- viii. PP should ensure to submit half yearly compliance report and CSR activity report with photographs of plantation in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC, GoI, Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Basalt Stone Quarry (Opencast Manual/Semi Mechanized Method) in an area of 1.409 ha. for production capacity of 9975 cum/year at Khasra No.520/2/2 at Village- Shekhukheda, Tehsil - Jawar, Dist. Sehore MP for the lease period to Shri Ravindra Thakur, R/o Dadawadi Colony, Ward No. 16, Ashta, Dist. Sehore, MP - 466001.

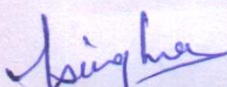

12. **Case No.6095/2019** – Prior Environmental Clearance for Flagstone Quarry (Open cast semi mechanized method) in an area of 1.230 ha. for production capacity of 3240 cum / year at Khasra No. 21/2, 22 at Village - Bachhaun, Tehsil - Pawai, Dist. Panna (MP) by Shri Siyaram Chourasia, Ganj Saleha, Tehsil - Gunour, Dist. Panna, MP - 488001

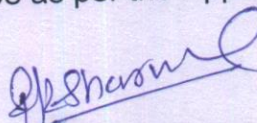

This case was recommended in 374th SEAC dated 25.05.2019 and it was recorded that.....

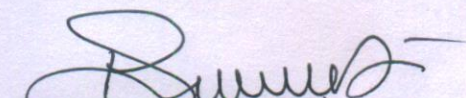

----- Vide letter dated 22.05.2019, PP has submitted the desired information, which was placed before the committee. After deliberations, the EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'A':

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. **After detailed discussions and perusal of recommendations of 374th SEAC dated 25.05.2019, presentation made by the PP in SEIAA, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:-**

- I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of lease area to avoid any untoward incident involving public and animals by the PP.
- II. PP shall not start mining activity before execution of lease agreement.
- III. The depth of the pit shall be as per the Approved Mining Plan.

(Jitendra Singh Raje)
Member Secretary

(R.K. Sharma)

- IV. The entire area shall be fenced and three rows of plantation should be done on the periphery of the boundary.
- V. PP shall ensure that the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.
- VI. PP shall ensure to construct and maintain 800 m approach road. Plantation will be carried out on both side of approach road.
- XV. PP shall ensure protection and conservation of existing trees falling under mining lease area and in no way these will be permitted to be cut / uprooted.
- VII. Blasting in any case will not be done in for mining in the lease area
- VIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road & as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.
- IX. Total 1250 saplings shall be planted by PP under plantation programme suitable indigenous tree species Lease boundary, approach road. Plantation of Neem, Aam, Bargad, Arjun, Amaltash, Gulmohar, Maha-neem, etc. on priority shall be ensured by PP.
- X. PP must ensure implementation of the following activities with separate budget provision of Rs.0.85 lakh under CSR
- (a) Provide 1 water filter for drinking water in nearby school at Bachhaun, Harduwa, Jaitupura, Kutmi Bandora, Lilwar village.
 - (b) Provide sports kit (Football, Cricket) in nearby school at Bachhaun, Harduwa, Jaitupura, Kutmi Bandora, Lilwar village
 - (c) Provide books for library published by NBT in nearby school at Bachhaun, Harduwa, Jaitupura, Kutmi Bandora, Lilwar village

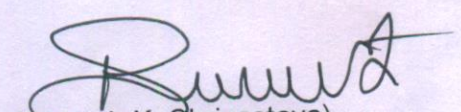

The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat

- XI. PP should ensure to submit half yearly compliance report and CSR activity report with photographs of plantation in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC, Gol, Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Flagstone Quarry (Open cast semi mechanized method) in an area of 1.230 ha. for production capacity of 3240 cum / year at Khasra No. 21/2, 22 at Village - Bachhaun, Tehsil - Pawai, Dist. Panna (MP) for the lease period to Shri Siyaram Chourasia, Ganj Saleha, Tehsil - Gunour, Dist. Panna, MP - 488001 .

Minutes of the 556th Meeting of SEIAA dated. 13.06.2019

SEIAA vide letter no 478 dated 09/05/2019 forwarded this case file to SEAC by stating that: this case was discussed in 539th SEIAA meeting dtd 23.4.2019 and it has been recorded that "This case was recommended in 354th SEAC dtd. 28.03.19 and it was recorded that vide letter dated 28.03.19, PP has submitted the desired information which was placed before the committee. After deliberations committee decided that as the EMS and other submissions made by the PP earlier were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at Annexure 'A'

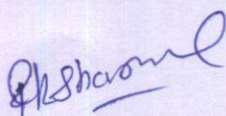

After detailed discussion and perusal of the recommendations of 354th SEAC meeting dated 28.03.19 and during presentation it was observed as per Google image based on co-ordinates provided by PP a water body in existence at approx 230 meters in the south side of the lease & natural nallah in the S-E direction approx 200 meters. It is decided to reappraise the case by SEAC whether any natural drainage is passing through the mining lease area or not.

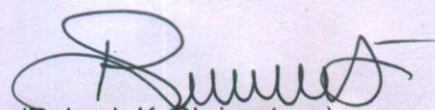

The above case was placed before the committee. Committee observed that in the minutes issue related to existence of natural drainage and water body were discussed in the minutes and PP was asked to provide settling tank & garland drains. Committee observed that since PP has submitted the proposal for settling tank with garland drain, the case was recommended for grant of EC. Further as per rule 05 MMR, 1996 the restrict distance from any natural body is 100 meters. As per Google image, no natural drainage is seems to be passing through the lease.

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. **After detailed discussions and perusal of recommendations of 354th SEAC dated 28.03.2019 & 374th SEAC dated 25.05.2019, presentation made by the PP in SEIAA, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:-**

- I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of lease area to avoid any untoward incident involving public and animals by the PP.
- II. PP shall not start mining activity before execution of lease agreement.
- III. The depth of the pit shall be as per the Approved Mining Plan.
- IV. The entire area shall be fenced and three rows of plantation should be done on the periphery of the boundary.
- V. PP shall ensure that the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.
- VI. PP shall ensure to construct and maintained the approach road. Plantation will be carried out on both side of approach road.
- VII. PP shall ensure to construct appropriate size garland drain & settling tank as recommended by SEAC all around the lease area.
- VIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road & as

Member

(Rakesh K. Shrivastava)
Chairman

part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

- IX. Total 2000 saplings shall be planted by PP under plantation programme suitable indigenous tree species Lease boundary, approach road & towards pakka road. Plantation of Neem, Chirol, Mahua, Amaltash, Kachnar, Pipal, Drumstick etc. on priority shall be ensured by PP.
- X. PP must ensure implementation of the following activities with separate budget provision of Rs.1.05 lakh under CSR
- (a) Providing financial support to the villager's children for (Smart class's Projector, Projector Stand, Flexiable screen, Computer System.) In nearby school & Panchayat Bhawan per year per village as Dugaliya, Drigpal pur, Magraya, Bhurali, Makrai Kila.

The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat

- XI. PP should ensure to submit half yearly compliance report and CSR activity report with photographs of plantation in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC, Gol, Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

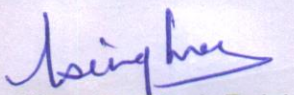

Hence, Prior Environmental Clearance is granted for Stone Quarry (Open cast manual /semi mechanized method) in an area of 2.645 Ha. for production capacity of 31752 cum/ year at Khasra No. 60/4, 60/1/2 at Village - Dugaliya, Tehsil - Sirali, Dist. Harda (MP) for the lease period to Shri Pavan Mishra, Narmada Colony, Saraswati School Ke Pass, Tehsil - Sirali, Dist. Harda, MP - 488446 .

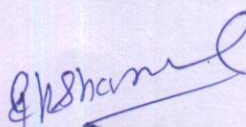

17. **Case No. - 5695/2018**-Prior Environmental Clearence for sand mine in an area of 20.00 ha (Minalbe area 10.11 ha out of 20.00 ha allotted area as per SEAC recommendation) for production capacity of 2,22,925 cum per annum at Khasra no. 317/384 at Village Mohbala, Tehsil - Manpur, Dist. Umariya (MP) by Sarpanch/Sachiv, Gram Panchayat Bhavan, Village - Balhod, Tehsil - Manpur, Dist. Umariya, MP

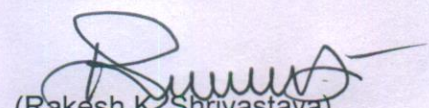

The case was discussed in 374th SEAC dated 25.05.2019 and it was recorded that :-

SEIAA vide letter no. 2839 dated 28/03/2019 has forwarded a letter & case file stating that:

"A compliant received through above referred letter was sent to EAC to examination. The matter has also published in the daily has also published in the daily news paper "Raj Express" regarding the violation of EC conditions. A copy of the compliant and news paper cutting with the technical file is enclosed for ready reference please. In view of above the matter seems doubtful, therefore it is requested to examine the matter and carry out the site inspection at the earliest".

Minutes of the 556th Meeting of SEIAA dated. 13.06.2019

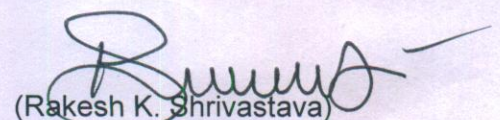

The case with above details was placed before the committee. Committee observed that two complaints are made in this case one from Shri Afsar Khan, Shahdol vide letter dated 11/01/2018 and another through reporting's in news papers. The issue raised in the complaint made by Shri Afsar Khan are replied by Collector Umariya (forwarded by Sarpanch Balhod vide letter dated 11/04/2019) issued vide letter no. 265 dated 08/02/2019 which is self explanatory. However, for the reporting made in news papers for issues relating to the mining through machines, mining in mid stream etc are related to the compliance of EC conditions and certainly needs site verification as instructed by SEIAA. Committee after careful examination of the file recommends that primarily a verification/compliance report may be obtained from the Collector/Commissioner/Competent District Authority on the issues raised in the paper cutting/complaint. If the report is not conclusive and further inspection is required, a joint team comprising members from SEAC, District Authority, representative from MoEF&CC, SEIAA, Forest Department & Mining Department may be constituted to verify the compliance of EC conditions as in sand mining project identification of lease can be done by concerned district authority, issues related to forests can be addressed by Forest Department and EC compliance by MoEF&CC as PP has to submit 06 monthly compliance report

As per above recommendation of SEAC, it is decided to constitute a joint team comprising members from SEAC, representative of MOEF&CC, representative of District Authority, Regional Officer, M.P. Pollution Control Board, Mining Officer, representative of Field Director, Bandhavgarh Tiger Reserve. SEAC in coordination with team members will inspect the site to verify the compliance of EC conditions and submit inspection report to SEIAA for necessary action.

Meeting ended with a vote of thanks to the Chair.
