No.: 473 /SEIAA/ 21
Date: 13.5.21

To,
Shri Virendra Singh Jadon,
E-7/M-708, Arera Colony,
Dist. Bhopal, MP - 462016

Sub: - Case No 7343/2020 Prior Environment Clearance for **Sand Quarry** in an area of 7.891 ha. for production capacity of 40,000 cum per annum at Khasra No. 34 at Village- Kubari, Tehsil- Palera, District- Tikamgarh (MP) by Shri Virendra Singh Jadon, E-7/M-708, Arera Colony, Dist. Bhopal, MP - 462016.

This has reference to your letter received in SEIAA office on 06.07.2020 and subsequent letters seeking Prior Environmental Clearance for the above project under the EIA Notification, 2006. The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification, 2006 on the basis of the mandatory documents enclosed with the application viz., the Form - I, Pre-Feasibility Report, Mining Plan, EMP, DSR, ToR and subsequently submission of EIA, Public Hearing and the additional clarifications furnished in response to the observations of the State Expert Appraisal Committee (SEAC) and State Environment Impact Assessment Authority (SEIAA) constituted by the competent Authority.

II. It has been noted that the proposal is for **Sand Quarry** in an area of 7.891 ha. The mining lease area is located in Khasra No. 34 at Village- Kubari, Tehsil- Palera, District- Tikamgarh (M.P.). It lies at geographical co-ordinates at latitude 25°02'00.68" to 25°01'59.76" N and longitude 79°19'42.87" to 79°19'46.83" E. There is no National Park/Sanctuary within 10 Km radius. There is no forest boundary within 250 m. Mining Plan is approved by the Collector, Tikamgarh vide L.No. 11/khanij/3-6/2020/3477 Bhopal dated 06/03/2020.

The proposed project is for production capacity of 40,000 cum per annum. The mining will be carried out by as per approved mining plan. The total water requirement is 42.95 KLD (6.0 KLD Dust Suppression + 0.70 KLD Drinking/Domestic + 36.26 KLD Green Belt/Plantation which shall be met from hiring water tankers from nearby villages. The public hearing was conducted at Gram Panchayat Bhavan, Karula, Tehsil Palera District Tikamgarh on dtd. 11.02.2021, under chairmanship of Upper Collector, Tikamgarh.

III. The project has been considered in accordance with the provisions of the EIA notification issued by the Ministry of Environment & Forests vide S.O. 1533 (E), dated 14th September 2006.

IV. Based on the information submitted, as at Para (II) above and others the State Level Environment Impact Assessment Authority (SEIAA) considered the case in its 674th meeting dtd. 07.04.2021 and decided to accept the recommendations of 497th SEAC meeting dtd. 05.04.2021.

Hence, Prior Environmental Clearance is granted for Sand Quarry in an area of 7.891 ha. for production capacity of 40,000 cum per annum at Khasra No. 34 at Village- Kubari, Tehsil- Palera, District- Tikamgarh (MP) for the lease period to Shri Virendra Singh Jadon, E-7/M-708, Arera Colony, Dist. Bhopal, MP - 462016, subject to the compliance of following specific conditions as recommended by SEIAA & SEAC and subsequent Standard Conditions.

A. Specific Conditions

1. PP shall not start mining activity before execution of lease agreement.
2. The production capacity shall be limited to the quantity as recommended by SEAC.
3. The mining shall be carried out strictly as per the approved mining plan and ensure that the annual replenishment of sand in the mining lease area is sufficient to sustain the mining operations at levels prescribed in the mining plan.
4. No ramp will be allowed within the river basin to transport sand to the other bank. Transportation will be allowed on the bank side where the mineral is being excavated.
5. The entire lease area should be properly fenced and boundary stones marked at the site.
6. No in-stream mining shall be allowed. The local authorities should ensure that the mining activity is confined only in the dry portion where sand is exposed.
7. Leaving the submerged area as non-mining zone as committed in PP.
8. The depth of the pit shall be as per Approved Mining Plan.
9. Transportation of sand shall be strictly carried out from outside the village area.
10. The mining shall be carried out strictly in accordance with the Sustainable Sand Mining Management Guidelines, 2016 and Enforcement & Monitoring Guidelines for Sand Mining, 2020 issued by the MoEF&CC.
11. PP shall ensure compliance of the direction and provision made for sand mining methodology up to 5 ha. lease area as per the Notification 30.08.2019 issued by MP Mineral Resource Department, GoMP.
12. If the stream is dry, the excavation must not proceed beyond the lowest undisturbed elevation of the stream both which is a function of local hydraulics, hydrology and geomorphology.
13. PP shall ensure compliance of all the commitments made during public hearing and submit compliance reports in every six month of the year.
14. No Mining shall be carried out during Monsoon season.
15. Alternate transportation route should be decided in consultation with the local Gram Panchayat.
16. Total 12100 saplings of suitable tree species i.e. Neem, Peepal, Bargad, Gular, Mahua, Subabool, Sissoo Awala, Mango, Jamun, etc. shall be planted by PP in first two years under plantation programme at river bank, approach road and Khasa No. 49, 61 & 77 (govt. land) in consultation with the Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.
17. Overloading will be strictly prohibited.
18. Water sprinkling will be done on the approach road on the regular basis.
19. PP must ensure the implementation of following activities under CER with all budgetary provision as committed in SEIAA:-
 - ❖ Upgradation of govt. school building at village Kubri.
 - ❖ Construction of separate toilets (Boys & Girls) with proper water facility and provide drinking water facility of govt. school at village kubri.
 - ❖ Upgradation of Anganwadi Centre Kubri and provision of basic services such as drinking water, toilet, etc.
 - ❖ Installation of Hand Pump at Kubri Village.
 - ❖ Development of grassland using prosopis seeds on government waste land at Kubri GramPanchayat
 - ❖ To organize annual health camp at Kubri Panchayat
 - ❖ Construction of CC Roads (600X3mtr) at Kubri Panchayat.

PP shall ensure contribution of funds on behalf of village under Jal Jeewan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in

24. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
25. Any appeal against this prior environmental clearance shall lie with the Green Tribunal, if necessary, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
26. District Authority should annually record the deposition of sand in the lease area (at an interval of 100 meters for leases 10 ha or > 10.00 ha and at an interval of 50 meters for leases < 10 ha.) before monsoon & in the last week of September and maintain the records in RL (Reduce Level) Measurement Book. Accordingly authority shall allow lease holder to excavate only the replenished quantity of sand in the subsequent year.
27. Overhead sprinklers arrangements with solar pumps should be provided for dust suppression at the exit of the lease area and fixed types sprinklers on the evacuation road. PP should maintain a log book wherein daily details of water sprinkling and vehicle movement are recorded.
28. Transportation of material shall only be done in covered & PUC certified vehicles with required moisture to avoid fugitive emissions. Transportation of minerals shall not be carried out through forest area without permissions from the competent authority.
29. Mineral evacuation road shall be made Pucca (WBM/black top) by PP.
30. Sand and gravel shall not be extracted up to a distance of 1 kilometer (1Km) from major bridges and highways on both sides, or five times (5x) of the span (x) of a bridge/public civil structure (including water intake points) on up-stream side and ten times (10x) the span of such bridge on down-stream side, subjected to a minimum of 250 meters on the upstream side and 500 meters on the downstream side.
31. Mining depth should be restricted to 3 meters or water level, whichever is less and distance from the bank should be 1/4th or river width and should not be less than 7.5 meters. No in-stream mining is allowed. Established water conveyance channels should not be relocated, straightened, or modified.
32. Demarcation of mining area with pillars and geo-referencing should be done prior to the start of mining.
33. PP shall carry out independent environmental audit atleast once in a year by reputed third party entity and report of such audit be placed on public domain.
34. After mining is complete, the edge of the pit should be graded to a 2.5:1 slope in the direction of the flow.
35. Necessary consents shall be obtained from MPPCB and the air/water pollution control measures have to be installed as per the recommendation of MPPCB.
36. Thick plantation shall be carryout on the banks of the river adjacent to the lease, mineral evacuation road and common area in the village. PP would maintain the plants for five years including casualty replacement. PP should also maintain a log book containing annual details of tree plantation and causality replacement and to take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
37. Six monthly occupational health surveys of workers shall be carryout and all the workers shall be provided with necessary PPE's. Mandatory facilities such as Rest Shelters, First Aid, Proper Fire Fighting Equipments and Toilets (separate for male & female) shall also be provided for all the mine workers and other staff. Mine's site office, rest shelters etc shall be illuminated and ventilated through solar lights.
38. A separate bank account should be maintained for all the expenses made in the EMP and CER activities by PP for financial accountability and these details should be provided in Annual Environmental Statement. In case the allocated EMP budget for mitigative measures to control the pollution is not utilized fully, the reason of under utilization of budgetary provisions for EMP should be addressed in annual return.
39. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
40. Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product - mix in proposed mining unit shall require a fresh Environment Clearance.
41. A separate budget in EMP & CER shall maintained for development and maintenance of grazing land as per the latest O.M dated 16/01/2020.
42. The project proponent shall follow the mitigation measures provided in MoEFCCs Office Memorandum No. Z-11013/57/2014-IA. II (M) dated 29th October 2014, titled "Impact of mining activities on Habitations-issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area".

43. Following conditions must be implemented by PP in case of sand mining as per NGT (CZ) order dated 19/10/2020 in OA NO. 66/2020 and SEIAA's instruction vide letter No. 5084 dated 09/12/2020.

- i. The Licensee must use minimum number of poclains and it should not be more than two in the project site.
- ii. The District Administration should assess the site for Environmental impact at the end of first year to permit the continuation of the operation.
- iii. The ultimate working depth shall be 01 m from the present natural river bed level and the thickness of the sand available shall be more than 03 m the proposed quarry site.
- iv. The sand quarrying shall not be carried out blow the ground water table under any circumstances. In case, the ground water table occurs within the permitted depth at 01 meter, quarrying operation shall be stopped immediately.
- v. The sand mining should not disturb in any way the turbidity, velocity and flow pattern of the river water.
- vi. The mining activity shall be monitored by the Taluk level Force once in a month by conducting physical verification.
- vii. After closure of the mining, the licensee shall immediately remove all the sheds put up in the quarry and all the equipments used for operation of sand quarry. The roads/pathways shall be leveled to let the river resume its normal course without any artificial obstruction to the extent possible.
- viii. The mined out pits to be backfilled where warranted and area should be suitable landscaped to prevent environmental degradation.
- ix. PP shall adhere to the norms regarding extent and depth of quarry as per approved mining plan. The boundary of the quarry shall be properly demarcated by PP.
